SEVENTY-FIRST ANNUAL REPORT

OF THE

RECEIPTS AND EXPENDITURES

OF THE

CITY OF CONCORD

FOR THE

YEAR ENDING DECEMBER 31, 1923

TOGETHER WITH OTHER ANNUAL REPORTS AND PAPERS RELATING TO THE AFFAIRS OF THE CITY

CONCORD, N. H. 1924

1923

MUNICIPAL REGULATIONS.

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the eity, or aid to the eity poor, should be particular to take the name of the person ordering such service, material, or aid, and should know that the person is duly authorized to contract such liability.

The city will not be holden for merchandise sold or delivered on city poor account, except on the written order of the overseer of the poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county poor account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action ean be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the city government.

The regular monthly meetings of the city government occur on the second Monday of each month.

ARTHUR E. ROBY, City Clerk.

INAUGURAL ADDRESS OF THE MAYOR.

Gentlemen of the Board of Aldermen:

At this time I want to thank the citizens of Concord for the high honor conferred upon me. I am aware of the responsibility that the office of chief executive of so beautiful a city as Concord carries with it. I have always liked Concord and I am glad to say 1 like its citizens also.

Our city has always enjoyed the reputation of being exceptionally clean and visitors invariably remark upon this. We should continue to make this reputation possible. I believe that strangers within our gates should be shown every courtesy so that on leaving Concord they will remember the attention shown them and tell others about it.

I have spent considerable time in looking over our various departments and I am sure that if our eitizens would interest themselves sufficiently to do so there would be far less criticism. I am willing to admit that the entire board should work out its own course.

FIRE DEPARTMENT.

Our fire department is one of the finest in the country. Everything is up to date and is kept in the best of shape. It is wholly motorized and under Chief Green who is recognized by everyone to be well qualified for the position.

CITY OF CONCORD.

POLICE DEPARTMENT.

Our police department is in good working order but conditions vary each year and the time is not far distant when changes will be necessary to meet the additional demands. There is one thing that occurs to me in speaking of this department, namely the housing of women prisoners. At the present time there is no separate place for women prisoners. And unfortunate women should have proper care and consideration and I would suggest that something be done at once to provide suitable quarters for this class of prisoner. I notice that back in 1915 when the addition to the police station was built, Mayor Hobbs mentioned in his inaugural address that there was ample space for this improvement but to date nothing has materialized along this line.

HIGHWAY DEPARTMENT.

The Highway Department is in excellent condition and is one of the most complete organizations in the eity. It is worth one's time to visit the city stable and yard. I believe that the time has come when we must do something to take care of the snow in winter to make it possible for the fire department to work more effectively in heavy storms.

It is important that Coneord should have good streets but it will be impossible to put them in good condition in one or even two years. Whatever work we may do in building new roads should be of a permanent nature but we must use good judgment in our expenditures.

PARKING.

Automobiles are becoming so numerous that it is absolutely necessary to change our parking system. I believe it is up to the board to work this out. Many complaints have also been received in regard to the dust on Main street in the summer time. I believe this condition should also be remedied.

SEWER DEPARTMENT.

The Civil Engineering and Sewer Department is under the personal supervision of Mr. Lang, and I hear nothing but praise of this department.

HEALTH DEPARTMENT.

The Health Department is under the supervision of a competent health officer, Mr. Palmer.

WATER WORKS.

The City Water Works, as you are well aware, is a business proposition, and if you will read the annual report you will find that this department is in the hands of a competent commission.

Your net bonded indebtedness in the Water Department on January first, 1920, was \$384,000. On January first, 1924, this debt was \$267,000, making a decrease for the four years of \$117,000.

SCHOOLS.

The Schools of our city rank second to none. This I am told by outside parties who move here during the winter so that their children may attend our schools. There has been talk of a new high school building to relieve the congested situation.

The school bonds on January first, 1920, were \$185,800. On January first, 1924, they were \$183,300, making a decrease for the four years of \$2,500, but there was \$40,000 in school bonds issued in 1922 so they really paid off on the old bonds the amount of \$42,500 in four years.

TREES.

Each year the city appropriates a certain amount of money for the care of our trees. Recently a survey was made by the Chamber of Commerce of the condition of our trees. I understand this survey is to be turned over to the city. I believe this report should be carefully considered and some recommendation made by the board. I personally feel that this survey will be of much value to the city.

In looking over our city buildings, it seems to me that they need some attention, especially city hall, which, to my mind, should always be in the pink of condition.

It is the duty of each official and employee of the city to be courteous and obliging in his or her dealings with the public. When visitors come to city hall they should feel that they are in a friendly atmosphere, and this can be accomplished if each and every person will consider it a duty as well as a pleasure to see that they are made to feel at home. We should be as one large family, at the service of the public. There should be no place for grouches. We have a non-partisan charter, and I have no desire other than to serve my city with this board without fear or favor, and I know that every alderman feels as I do. from conversations I have had with them.

FINANCES.

You all realize that to successfully manage any business the finances must be looked after carefully. I am going to give you briefly figures showing how your city stands today as compared with four years ago.

On January first, 1919, the city of Concord net debt was \$862,276.37. During the year 1919 it was decreased \$53,127.25. In 1920 it was decreased \$72,020.81. In 1921 it was decreased \$9,655.05. In 1922 it was decreased \$11,750. I feel sure when we get the city report for 1923 you will find that the city's indebtedness was increased during that year.

City reports for the last three years indicate that financial conditions have not been as satisfactory as they were before that time. It is a fact that there were some unusual and unexpected expenses to be met. I am not blaming anyone for this condition but in order to protect the incoming administration I feel that this situation should be explained. The city belongs to the citizens of Concord, and it is their right to know how things are going. In the first place, I think you will agree with me when I say that "We should pay for what we have." By this I mean our current running expenses. This has not been done. In 1921 the tax rate was reduced and the city has an increase in its net municipal debt.

In 1919 the net municipal debt was \$204,460.42. It was decreased that year \$20,992.62. In 1920 it was still further decreased \$27,948.79. In 1921 it made an increase of \$25,242.06. In 1922 it made a still further increase of \$15,390.28 plus \$18,826 due the State on the \$2 poll tax which was not set up as a liability. For January first. 1924, the only figures that I can give you are that of a note which remains unpaid in the amount of \$75,000, and approximately \$65,000 which is due to the Union School District with about \$84,000 in uncollected taxes to be credited to this amount. I find from the city reports that the municipal government has gone behind in its running expenses for the last three years nearly \$125,000.

The city charter provides that all city departments, except police and fire, shall work nine hours a day. At present city hall is open in the morning at nine o'clock, closed for lunch between the hours of 12 and 2 P. M., and is then open until 5 P. M. One day recently I visited the city hall at 1.15 P. M. and found nine people in the corridors waiting to get into various departments. Of course they had 45 minutes to wait. I believe we should be open continuously from 9 A. M. to 5 P. M. Why should we not be as conscientious in regard to the city's business as we are with our own?

I hope and feel sure that we can work together harmoniously, and with this experienced board of aldermen we should be able to give the city a good administration.

I want to thank Mayor Chamberlin and all others who so willingly co-operated to help me get started.

WILLIS H. FLINT, Mayor.

ORDINANCES AND RESOLUTIONS.

PASSED DURING THE YEAR ENDING JANUARY 14, 1924.

CITY OF CONCORD-ORDINANCES.

AN ORDINANCE IN AMENDMENT OF THE ORDINANCE RELATING TO THE REGULATION OF STREET TRAFFIC.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the first paragraph of Section 12, Article IV, of the ordinance relating to the regulation of street traffic be amended, by striking out said paragraph and inserting in place thereof the following: "No vehicle licensed to carry passengers under Chapter XXXIV, of the City Ordinances, shall park on Main Street, or Pleasant, Warren, School and Capitol Streets from Main to State Streets, between the hours of 7 A. M., and 11 P. M., longer than to discharge or take on passengers, unless in actual service, provided however, that the City Marshal may, upon notice to him by one or more owners or operators of said vehicles, that the designated parking space on Pleasant Street Extension is unsafe, by reason of ice, snow. or other conditions, permit said vehicles to park on Main Street, until in his judgment such unsafe condition is terminated," so that said section as amended shall read as follows: "SECTION 12. No vehicle licensed to carry passengers under Chapter XXXIV, of the City Ordinances, shall park on Main Street, or Pleasant, Warren, School, and Capitol Streets from Main to State Streets, between the hours of 7 A. M., and 11 P. M., longer than to discharge or take on passengers unless in actual service, provided however, that the City Marshal may,

upon notice to him by one or more owners or operators of said vehicles, that the designated parking space on Pleasant Street Extension is unsafe, by reason of ice, snow, or other conditions, permit said vehicle to park on Main Street until in his judgment such unsafe condition is terminated.

"Pleasant Street, beginning 10 feet east from the east line of Main Street and the south side of Park Street as far west as the prolongation of the east line of the lot of St. Paul's Church, are hereby designated as parking places for said vehicles, and reserved for such purpose."

SECT. 2. The City Clerk shall publish the provisions of this ordinance in accordance with the requirements of Section 14, Chapter 119, Laws of 1921.

SECT. 3. All ordinances or parts of ordinances inconsistent herewith are hereby repealed, and this ordinance shall take effect upon its passage.

Passed March 12, 1923.

AN ORDINANCE ABOLISHING CERTAIN PRECINCTS.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. The Garbage Precinct, the City Street Lighting Precinct, the Penacook or School District No. 20 Street Lighting Precinct, the West Concord Street Lighting Precinct, the City Sewer Precinct, the East Concord Sewer Precinct, the Penacook Sewer Precinct, the St. Paul's School Sewer Precinct, the West Concord Sewer Precinct, the City Street Sprinkling Precinct and the Penacook or Ward One Street Sprinkling Precinct are hereby abolished except in so far as it may be necessary to maintain the City Sewer Precinct for the purpose of liquidating the indebtedness of said City Sewer Precinct. Said City Sewer Precinct shall be definitely abolished when its present indebtedness is paid in full.

SECT. 2. All of the activities of the said several precincts as heretofore maintained shall be continued at the expense of the city under the direction of the Board of Public Works. SECT. 3. The records of the several precincts hereby abol-

ished shall all be deposited in the office of the City Clerk.

SECT. 4. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed and this ordinance shall take effect upon its passage.

Passed March 26, 1923.

AN ORDINANCE AMENDING SECTION 4 OF CHAPTER 32 OF THE REVISED ORDINANCES RELATING TO THE COLLECTION OF POLL TAXES.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. Amend Section 4 of Chapter 32 by striking out the words "September 1st" so that said Section 4 shall read as follows: "SECT. 4. Poll taxes shall be paid to the collector on demand without previous notice, and if not paid on or before July 1st, twenty cents costs shall be added."

SECT. 2. All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed and this ordinance shall take effect upon its passage.

Passed April 23, 1923.

- AN ORDINANCE AMENDING SECTION 3, CHAPTER XL, OF THE REVISED ORDINANCES, RELATING TO FIRE PRECINCT AND REGULATIONS.
- Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. Amend Section 3, Chapter XL, of the Revised Ordinances by adding after the word "proper" in the last line the following: "Provided, however, nothing in this section shall apply to the erection of dormer windows, bay windows, piazzas or porches on buildings already constructed."

SECT. 2. This ordinance shall take effect upon its passage. Passed June 11, 1923.

- AN ORDINANCE IN AMENDMENT OF CHAPTER VI OF THE REVISED ORDINANCES.
- Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. Amend Section 1 of Chapter VI of the Revised Ordinances by striking out of the same and inserting in place thereof the following:

"SECTION 1. No person shall break or dig up the pavement, ground, or stones in any street, lane, alley, sidewalk or common in the city, or erect any staging for building; or place or deposit any stone, brick, timber, or other building materials thereon, without first obtaining a written license from the board of public works, or some person authorized by them to grant such license, and complying in all respects with the conditions of such license; provided, however, that as to the works and system of any gas company, such license shall be so obtained prior to any construction, or extension of mains; such license shall be obtained from the superintendent of streets, or other official designated by the board of public works, prior to construction, reconstruction or repair of services; and no such license shall be required prior to any emergency work necessary to be done immediately to such works and system, and in every case of breaking and digging up the pavement, ground or stones such Gas Company, or their servants, shall not unnecessarily or unreasonably, nor for any unnecessary or unreasonable time, obstruct or encumber any street, lane, alley, sidewalk or common, and shall at all times be subject to the superintendent of streets or city marshal in regard thereto, and shall comply with the requirements of the third section of this Chapter."

SECT. 2. Amend said Chapter VI of the Revised Ordinances by changing the number of section 20 to 21 and inserting the following: "Owners of land adjoining a public highway desiring to establish or repair any portion of a drive way giving access to their land but within the limits of the highway shall petition the board of public works for consent to the establishment or repair of such portion of the driveway as lies within the limits of the highway. The board of public works may give a written license for the establishing or repair of the same, but the labor and materials used within the street line shall be furnished by the city under the direction of the board of public works and the expense thereof shall be paid by the petitioner to the city. As a condition of the giving of written consent to such work, the board of public works may require of the petitioner a deposit of the established cost of the labor and materials to be furnished by the city, such deposit to be paid to the city in advance of the doing of the work, any unexpended balance to be returned to the petitioner by the city, or any deficiency to be paid by the petitioner to the city, upon the completion of the work."

SECT. 3. This ordinance shall take effect January 1, 1924. Passed November 12, 1923.

- AN ORDINANCE AMENDING SECTION 5 OF AN ORDINANCE PASSED FEBRUARY 14, 1921, RELATIVE TO FIRE PROTECTION.
- Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. Amend Section 5 of an Ordinance Providing for Fire Protection by striking out the word "Center" wherever it appears and inserting the word "Court," and the word "Concord" wherever it appears and inserting the word "West" so said section as amended shall read as follows:

"SECT. 5. It shall be the duty of the Chief of the Fire Department to inspect, or cause to be inspected by such officers or members of the Fire Department as he shall designate, as often as he shall deem necessary, all buildings, premises, and public and private thoroughfares, and cause to be corrected any conditions liable to cause fire, or any violations of the provisions of this ordinance; said inspection shall be made at least once each month within the limits beginning on the main track of the Southern Division of the Boston and Maine Railroad at a point in the center line of Court Street extended easterly; thence westerly by the center line of said Court Street extended and of said Court Street, to the center line of North State Street; thence Southerly by the center line of North and South State Streets to the center line of Fayette Street; thence easterly by the center line of said Fayette Street to the center line of South Main Street; thence southerly by the center line of South Main Street, to the center line of West Street; thence easterly by the center line of West Street extended easterly, to the south bound track of the Southern Division of said Boston and Maine Railroad; thence northerly by said track to the point of beginning."

SECT. 2. This ordinance shall take effect upon its passage. Passed November 12, 1923.

- AN ORDINANCE IN AMENDMENT OF CHAPTER XXIII OF THE REVISED ORDINANCES.
- Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. Amend Section 11 of Chapter XXIII of the Revised Ordinances by striking out the whole thereof and inserting the following:

"SECT. 11. Every person who may desire to enter his particular drain into any main or common sewer, may have permission to do so at his own expense on written petition to and receiving the written consent of the board of public works. The labor and materials for connecting such drain from the main or common sewer to the line of the public highway shall be furnished by the city under the direction of the board of public works and the expense thereof shall be paid by the petitioner to the city. As a condition of the giving of written consent to such work, the board of public works may require of the petitioner a deposit of the estimated cost of the labor and materials to be furnished by the city, such deposit to be paid to the city in advance of the doing of the work, any unexpended balance to be returned to the petitioner by the city, or any deficiency to be paid by the petitioner to the city, upon the completion of the work."

SECT. 2. Amend said Chapter XXIII by striking out the whole of section 12.

SECT. 3. Amend Section 13 of said Chapter XXIII by striking out the whole thereof and inserting the following:

"SECT. 12. All private drains which are laid under ground to connect with the public sewers shall be built and connected by some suitable person, who shall have received a license from the mayor and aldermen as a layer of drains, and such drain layer shall be held responsible for such drains. He shall construct such drains in all cases water tight, of imperishable materials, and upon secure foundations, as that they shall not be liable to settle and crack. He shall make connections with the sewer at the points where the city lays the connecting drains at the line of the street and not elsewhere except by special permission of the board of public works, and such connections shall be made in a proper manner, according to instructions which may be given him from time to time by said board of public works, and in all cases subject to their approval.

"All changes in direction of drain pipes shall be made gradually, using curves where necessary, and avoiding sharp angles, and the inside of every drain shall be left smooth from end to end, and perfectly clean. He shall give the greatest inclination to such drain that the circumstances will permit, and in no case shall water-closet or kitchen drains be laid with an inclination less than one quarter of an inch to the foot, except by special permission of the board of public works and upon such conditions as they may prescribe. The ends of all pipes not to be immediately connected with water-closets, sinks, drainspouts, or catch-basins, must be securely guarded against the introduction of sand or earth; and all pipes that must be left open to drain cellars, areas, yards, and gardens, must be connected with suitable catch-basins of brick, and properly and securely trapped.

"Each licensed drain layer shall perform all work upon such drains in the most thorough and workmanlike manner, and employ suitable and proper materials and none other,

ORDINANCES.

and shall provide such drains with such suitable catch-basins, traps, and other appurtenances as are required by this chapter. His license which shall be issued annually may at any time be revoked by the mayor and aldermen in case of failure to comply with the provisions of this chapter, or whenever in their judgment the public interest may require it."

SECT. 4. Sections 14, 15 and 16 of said Chapter XXIII shall be renumbered 13, 14 and 15 respectively.

SECT. 5. Add to said Chapter XXIII the following:

"SECT. 16. No repairing or relay of private drains shall be made except under the same terms as are herein prescribed for the original entrance."

SECT. 6. Amend Chapter 17 of said Chapter XXIII by striking out the whole thereof and inserting the following:

"SECT. 17. "If any person shall enter or cause to be entered any common sewer for the purpose of drainage, or for any other purpose, or shall repair or relay any private drain, without the permission in writing of the board of public works, or shall enter such sewer or drain in a manner different from that prescribed by this chapter, or shall obstruct or injure any common sewer, he shall, on conviction thereof, be fined not more than twenty dollars for each offence."

SECT. 7. This ordinance shall take effect January 1, 1924. Passed November 12, 1923.

AN ORDINANCE REGULATING DANCES.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. Every person or organization holding a dance in this city where a fee or charge is made for dancing or admission to the place of dance, notwithstanding that admission may be limited to those invited, or that women or certain classes of persons may be admitted free, or that the admission fee or charge is for a show, exhibition or entertainment followed by a dance with no extra charge for dancing, shall prior thereto obtain a written license therefor, from the mayor, city clerk, and city marshal who are hereby constituted a licensing board.

SECT. 2. Such license shall specify the time and place of the dance. It shall not include more than one place, but may include more than one time, and the times may be expressed in general terms such as "Every Tuesday Evening" or "Every Evening Except Sunday" or the like. It may be revoked at the pleasure of the licensing board.

SECT. 3. A police officer to be designated by the city marshal and paid for by the persons or organization holding such dance, shall be in attendance at every such dance, unless the license expressly states that no police officer is required.

SECT. 4. A police officer designated and attending such dance, or any police officer present, shall preserve order in the place or rooms used in connection with such dance, and shall stop any disorderly or improper dancing or disorderly conduct of any particular individual present, and shall order or remove from said place or rooms any person disregarding his injunctions.

SECT. 5. Minors under the age of eighteen years shall not be allowed admittance to such place where a dance is being held, unless accompanied by parent, guardian, or suitable adult chaperone.

SECT. 6. The license fee for each dance ending after 12 o'clock midnight, shall be one dollar, and for each dance ending on or before 12 o'clock midnight, fifty cents. Said fee, together with the fee for the police officer which shall be at the price per hour set by the city marshal, shall be paid in advance to said city marshal, said fees to be deposited in the city treasury and appropriated to the police department at the end of each year as earnings of that department. Said licensing board may in its discretion issue dance licenses free, to organizations, or societies for charitable, educational or other benefits.

SECT. 7. The violation of any of the provisions of this ordinance shall be punished by a fine not exceeding ten dollars for each offence.

SECT. 8. All ordinances or parts of ordinances inconsistent herewith are hereby revoked and this ordinance shall take effect February 1, 1924.

Passed January 14, 1924.

RESOLUTIONS.

RESOLUTIONS.

RESOLUTION APPROPRIATING MONEY FOR TYPEWRITERS.

Resolved by the Board of Aldermen of the City of Concord, as follows:

That the sum of two hundred and twenty dollars (\$220) be, and the sum hereby is, appropriated for the purchase of a typewriter for the assessors' office and one for the city clerk's office, said amount to be charged to the account of incidentals and land damages.

Passed February 12, 1923.

Resolution appropriating money to pay taxes assessed in 1922 on non-resident property sold to the city in 1920 for 1919 taxes.

Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the sum of twenty-two cents (\$.22) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated, to pay taxes assessed in 1922 on non-resident property sold to the city in 1920 for 1919 taxes.

SECT. 2. This resolution shall take effect upon its passage. Passed March 12, 1923.

- Resolution appropriating money to pay taxes assessed in 1922 on non-resident property sold to the city in 1921 for 1920 taxes.
- Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the sum of one and 19-100 dollars (\$1.19) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated, to pay taxes assessed in 1922 on non-resident property sold to the city in 1921 for 1920 taxes.

SECT. 2. This resolution shall take effect upon its passage. Passed March 12, 1923.

RESOLUTION FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. There shall be raised and there is hereby ordered to be raised on the polls and ratable estates within the sewerage precinct of said city, the sum of six thousand thirtyfive dollars (\$6,035) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows: For the payment of interest that may become due on precinct bonds, \$2,035.00. For bonds, \$4,000.00.

SECT. 2. This resolution shall take effect upon its passage. Passed March 26, 1923.

RESOLUTION FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED FOR THE ENSUING FINANCIAL YEAR FOR THE USE OF THE CITY.

Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. There shall be raised and there is hereby ordered to be raised, on the polls and ratable estates within said city, the sum of two hundred and sixty thousand dollars (\$260,000.00) to defray the necessary expenses and charges of the city for the ensuing financial year, which, together with the sums which may be raised by taxes on railroads and from other sources, shall be appropriated as follows:

For payment of interest on bonds	\$4,940.00
For payment of interest on temporary loans	3,000.00
For payment of interest on Cemetery Trust funds	1,826.17
For payment of interest on Soucook River Improve-	
ment notes	750.00

SECT. 2. There shall be raised and there is hereby ordered to be raised, a tax of three and 50-100 dollars (\$3.50) on each thousand dollars of the value of the ratable estates taxable within said city for the support of the public schools, which, together with the income of the Abial Walker fund shall be appropriated and divided among the school districts according to the valuation thereof.

There shall also be raised a sum equal to two dollars (\$2.00) for each child residing in the city who was enrolled in the public schools in the last preceding school year.

SECT. 3. In addition to the foregoing there is appropriated for the cemeteries of the city one-half of the income from the sale of lots and the income derived for the care of lots and grading, which sums shall be deposited by the superintendent, or others receiving them, in the city treasury. The care of lots for which the city holds trust funds shall be paid from the money appropriated for the care of cemeteries, and so much of the income of these trust funds as may be thus expended shall be deposited in the city treasury at the close of the year and the remainder in each instance credited to the individual fund.

SECT. 4. In addition to the foregoing there is appropriated

for the use of the public library in the purchase of books the amount collected for fines.

SECT. 5. This resolution shall take effect upon its passage. Passed April 9, 1923.

- RESOLUTION TRANSFERRING FIFTEEN HUNDRED FIFTY-SEVEN AND 30-100 dollars of the income from the eastman library fund to the principal of said fund for the library.
- Resolved by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the sum of fifteen hundred fifty-seven and 30-100 dollars (\$1,557.30) of the income from the Eastman Library Fund, be and hereby is, transferred to the principal of said fund for the Library.

SECT. 2. This resolution shall take effect upon its passage. Passed April 9, 1923.

RESOLUTION APPROPRIATING MONEY FOR THE PURCHASE OF HOSE FOR THE FIRE DEPARTMENT.

MAYORS OF CITY OF CONCORD.

The original charter of the city was adopted by the inhabitants March 10, 1853, and until 1880 the Mayor was elected annually. Since 1880 the Mayor has been elected for two years at each biennial election in November. Under the City Charter, adopted May 11, 1909, the Mayor was elected in December, 1910, for one year, and biennially thereafter in November, beginning in the year 1911.

REPORT OF THE BOARD OF EDUCA-TION.

TO THE INHABITANTS OF UNION SCHOOL DISTRICT:

There have been some changes in the district to which attention should be called. At the time of the death of Mr. Clayton, Assistant Superintendent of Schools, in the latter part of July, and before another assistant superintendent could be engaged to take up his work, it seemed wise to relieve Mr. Rundlett, our Superintendent of Schools, of such duties as was possible. For some years Mr. Rundlett, at the request of the Board of Education, and under its supervision, has acted as financial agent of the district, the principal duties of which, aside from those falling on all superintendents of schools, was the handling of the money of the district, and the paying of Disbursing about one quarter of a million of all bills. dollars a year mostly in small amounts is obviously no small task.

The Board sought the advice of Elwin L. Page, eity solicitor, as to its power to appoint an officer to perform the duties contemplated, and upon exhaustive and painstaking examination of the matter, he advised the Board that it had the power under the special terms of the legislative enactments creating our school district, to appoint an officer to take over these duties, and further that the general law of the state providing for the election of a treasurer of school districts at their annual meeting as one of the usual officers thereof, did not apply to Union School District. Mr. Lake. Chairman of the Board, who considered the matter with Mr. Page, was in thorough accord with this opinion. In consequence thereof, Harry L. Alexander, Cashier of the Mechanicks National Bank, furnishing suitable bonds, was appointed treasurer of the district under proper amendments to the by-laws which had formerly been adopted by the Board. Mr. Alexander is now acting as such treasurer and is performing this service for the district without compensation.

Francis T. Clayton, Assistant Superintendent of our schools, died July 29, 1923. He had occupied this position in the district for five years. Out of a broad culture, remarkable mental attainments and deep earnestness, he had given the schools of Concord an unusual service. His interest in educational matters was extraordinary. This interest and his general ability were recognized by his associates of the New Hampshire Teachers' Association, whose representative he was on his uncompleted trip to California in the summer of 1923 to attend the meetings at San Francisco of the National Educational Association. Being too ill to complete the journey, he turned back to Concord, only, by his own force of will, the ministrations of medical attendants, and the aid of loving friends, to prolong a painful illness that proved fatal in the end. He was always composed and even cheerful in the most distressing pain, and possessed a faith triumphant over all doubts in the things material and spiritual for which he had lived and worked. Those who were at all close to him in the days of his last sickness knew that his was a rare soul indeed. His death is a distinct loss to the educational interests of New Hampshire.

After the death of Mr. Clayton, we engaged Charles W. Walker, at that time Superintendent of Schools at Gorham, N. H., to become our assistant superintendent. Mr. Walker we found was well trained for the position, and though a young man, had already a record of unbroken successes in his work to this time. He began his work November 1st, 1923, and has fulfilled all our expectations. We commend him to the goodwill and favorable attention of the community. We believe his work, begun under favorable auspices, will prove of great and lasting value to the school district.

When Dr. C. M. Kelley resigned the position of medical inspector in the spring of 1923, we soon thereafter engaged Arthur K. Day, M. D., of Concord, in his stead. Dr. Day did not need to become acquainted with this community for he had during many years been a physician here in successful practice. He had long been particularly interested in our schools and has brought to his work not only the training of a physician, but the interest of a loyal citizen and one devoted to the best interests of young life. Without reservations we say that Union School District is fortunate in having Dr. Day for its medical inspector.

With keenest regret we received some weeks ago notice from Miss Luella A. Dickerman that she wished not to be re-elected next year principal of Parker School. Miss Dickerman has been, in addition to other services as teacher in the district for many years, principal of this building. The distinction this school has attained under her leadership, the potent impulses given large numbers of boys and girls through the years towards studious habits, right personal relations toward life, and the development of the proper ideals of citizenship, as testified to by many who now occupy honorable and responsible positions in life, make the services of Miss Dickerman to the district unique indeed. The members of this board have personally heretofore expressed their feelings of regard to Miss Dickerman in this matter. But we desire in this more formal manner and in our official report to convey to her again our own respect and genuine affection for what she has meant to Concord boys and girls as well as to convey the grateful appreciation of the entire city.

In the early part of this year a request was received from the teachers of the district through the Teachers' Association, for a flat increase in salary to the amount of \$200 a year, each, over existing schedules. At the February meeting of the Board a special committee was appointed to consider the matter, confer with a committee from the Teachers' Association and report to the Board.

Several meetings were held and all pertinent matters were gone into exhaustively.

The last substantial increase in our teachers' salaries was in 1919-1920. This was after increased costs had entered into the expense of nearly all matters with which we are familiar. The teachers' salaries, as a fact, from 1914 to 1918, were raised only the average sum of \$100. Looking back now to this fact, it seems most amazing that our teachers receiving at that time salaries, not generous even according to the standard of the times, exercised so great a degree of restraint as not, under the pressure of their own needs and added costs of living, to make strenuous demands of the district for greatly increased salaries. While up to 1922 the cost of living had increased 105% as based upon the cost of 1914, our teachers' salaries during the same period for their living and the laving up of something for the support of later years had increased only 66%.

A careful examination of salaries paid in the cities of New Hampshire shows that we are paying much less than many of them-not specifically to mention Manchester. which in practically all lines pays so much more than we that we cannot expect perhaps ever to equal their schedule of salaries. We do not compare favorably with other cities of our size in New England. For instance. English teachers in such cities in all New England States, except Vermont, are receiving from 850 to \$250 more than our English teachers are receiving in Concord. Comparison between Concord and the cities throughout the country of our general size, as to teachers' salaries is unfavorable to us, for the teachers of both the elementary and advanced grades throughout the country are receiving salaries of from \$200 to \$250 on the average more than ours at the present time. On the whole show-

ing we believe our teachers are entitled to an increase in salary to begin next school year. No group of citizens better than the School Board can know the loyalty and ability of our teachers. These characteristics, together with length of service and a genuine interest in the welfare of the community should be rewarded on a money basis. Such increase is necessary, because we have to meet competition with the other towns and cities in New Hampshire, and this general locality where salary schedules are advancing. This is especially important in the High School group, where in certain departments in the last few years an astonishing number of changes have been made on account of teachers leaving Concord for other places, in most instances on account of increase in salaries. Also, the demands made upon the teaching force are much greater now than formerly and apparently are increasing all the while,-among other things the regulations of the State Department in regard to certificates become increasingly stringent. All these demands call for a greater expenditure for magazines. books, and professional study at summer schools, and while there is obviously a benefit in all this to the schools and to the teachers, and primarily such benefit is the reason for such rules and regulations, nevertheless, we cannot close our eyes to the proposition that they all cost the teacher money.

We believe that our teachers should receive increased salaries for the following purposes:

To live on comfortably, to allow the expenditure of such sums as are necessary to keep abreast of the times in the teaching profession, and to lay by funds on which to retire at the proper time.

We, ourselves, have agreed upon the sum of \$150 by way of a flat increase to the teachers next year. To this, the teachers, after due consideration, have agreed, and without reservation we recommend the district to provide the necessary funds for the coming year. This would involve an addition to the general appropriation of thirteen or fourteen thousand dollars.

The special committee on housing conditions in the district asked for by the Board at the last annual meeting, has reported to the public and the conclusions and recommendations of their report have the fullest approval of this Board. We do not here wish to review the facts found and reported by the joint committee but some facts in particular cannot escape attention. Our High School is not large enough for our present needs, and more crowded and unsatisfactory conditions in this respect are imminent. Likewise the Parker School is not large enough for our needs at the present time. It, too, is badly overcrowded. We have to use one large room in the basement for recitation purposes.

South of Pleasant Street the grade rooms are badly overcrowded, and relief from this condition must be had in the immediate future, for it is rapidly becoming intolerable.

Additions, at large expense, could be made to the High School building, but this would relieve congestion there only. Additions could be made at the Parker School, in view of the construction there, however, particularly costly, but these would only relieve congestion at the Parker School. If both these conditions were met, however, provisions would need to be furnished the grade rooms south of Pleasant Street now, as already stated, badly overcrowded.

We earnestly believe that the proper solution is building a new high school building for high school purposes, the removal of the Junior High School into the present high school building all under one roof, and the use of the Parker School for grade purposes, which arrangement would take care of the overcrowding in the grade rooms at the South End of the city for some years to come, i. e., until the population of the South End should so largely increase as to make the building of another school house imperative. Such an arrangement as is above set forth would be particularly beneficial to the Junior High School.

At the present time the Parker School is the second year only of the Junior High School. The first year's work is being carried on in the Chandler, Walker and the Garrison Schools, and it is apparent that the conducting of Junior High School activities under these conditions is a decidedly weak feature in our school system.

The first year of the Junior High is split up into three separate units in as many school rooms, widely separated, and with no contact whatever, and when the pupils enter the second year of the Junior High School in the Parker School from these three schools with different corps of teachers, it takes practically one-half of the first semester for class unity and class spirit, always desirable, to manifest itself. The result is that the last few months of the second year in the Junior High School is the only time that the children of this school really form a unit before they enter the High School. If the entire Junior High School could be together in one building for two full years this unity and spirit could be extended over substantially a year and a half.

The building plan above recommended we believe is the most economical of any yet proposed and considered. This will prove so, particularly if we seek and obtain authorization of the Legislature to incur debt beyond our present borrowing capacity as now limited by the general provisions of the law, the payment of such indebtedness, in the form of serial bonds, to be spread over a forty-year period.

A cursory examination of the recent Session Laws shows that such a scheme seems in its general provisions to be a favorite method of procedure with New Hampshire municipalities in their school building programs, as witness the following: Bristol, Claremont, Epping, Gorham, Hampton, Newmarket, Salem, New Castle, Newington and Peterboro, all of which for school purposes have received enabling acts from the Legislature.

We recommend that at the coming annual district meeting the Board should be authorized to obtain authority from the Legislature for the district to go beyond its present capacity to borrow money for school building purposes. This act should become law before the district meeting of 1925, at which time funds necessary for locating, building and equipping a new commodious high school building should be appropriated, and a special committee of the district empowered to carry these plans into effect.

We desire to report to the district the facts that the Dunklee Street kindergarten for which money was appropriated at the last annual meeting, has been in successful operation through the year and accommodates nearly forty small pupils. Fire escapes have just been added at an expense of a little over \$2,000 to the Dewey, Kimball, Penacook, and Chandler Schools. This was done in strict compliance with the recommendations of Chief Green of the Concord Fire Department. Also insurance to the extent of about \$250,000 has been added to the amount already in force on the buildings and equipment of the district. This was done after a careful survey of the value of the property of the districtin which matter Mr. Charles S. Piper of the Hutchinson Building Company rendered his valuable services, without compensation, to the district.

All the suggestions made by Mr. Griffin, Architect, who looked over our school properties, for the repairs and refurbishing, for which appropriation was made at the last annual meeting, have been complied with within the amount of the appropriation, and our buildings are in better repair than for years.

The Millville School has been in operation since the beginning of the school year, and has met our expectations as to its cost, its appearance when completed, and its efficiency and general tone when in use; and the addition to the Morrill School, housing the machine shop, has proven its value in the increased efficiency of the work being done by this highly important part of our school system.

Appreciation is due Drs. Young, Washburn and Morton for their painstaking work in connection with the dental clinic. The 344 pupils treated and 1,348 operations performed indicate the value and amount of their work. If we have a new high school building, more satisfactory provisions should be made for their accommodation.

More and more we realize that almost entirely the schools are depending for their best success upon the teachers of the district, and to them and Mr. Rundlett, our Superintendent, for their ability, their loyalty, their vision, and the flat drudgery they perform for our schools, we proffer the community's, and our own, grateful thanks.

The more we become acquainted with our schools, the more we learn to appreciate them, and it is our profound conviction, in closing, that the schools of Union School District are doing today as good, if not better, work than at any time during our knowledge of them, and that they are schools of which the city of Concord should be most proud.

Respectfully submitted,

HARRY F. LAKE, W. STANLEY EMERY, OSMA C. MORRILL, CHARLES DUNCAN, DOROTHY B. JACKSON, CARL H. FOSTER, BENNETT BATCHELDER, JOSEPH S. OTIS, ELISABETH R. ELKINS, Board of Education of Union School District.

SCHOOL REPORT.

69

REPORT OF THE COMMITTEE FOR CONSTRUCTING THE MILLVILLE SCHOOL.

The new school in the Millville District has been completed and has been in use since the opening of school last fall. The grading is not yet fully done, but will be finished as soon as possible this spring.

The building is located on a lot given to the district by St. Paul's School, and lying just north and adjoining the old lot, thereby leaving the old lot for a play ground. and giving a chance for enlargement of the present building should the growth of the district ever demand it.

The building is of brick and hollow tile construction. containing in the basement, toilet rooms, boiler room, and two rooms which might be used for manual training, domestic science, or any special work which is desired. On the main floor are three school rooms, teachers' room, lunch room, and janitor's room. The school rooms are constructed with sliding partitions between them, so that they may be thrown into one large assembly hall for special exercises of the school.

The building would have been constructed within the appropriation made by the district, had not a spring developed in the basement, which required special drainage work, and the laying of one hundred eighty feet of drain to get sufficient fall to insure no trouble from water in the basement: also a drainage pipe put in by the city some years ago which had to be relaid when excavating for the foundation. This work cost an extra \$575.31 which was not planned in the original cost, for which reason there is a small balance due the Hutchinson Building Co., which, together with the cost of finishing the grading, will amount to just about this extra cost.

REPORT OF THE SUPERINTENDENT.

To the Board of Education of Union School District, Supervisory Union, No. 8:

I am offering my thirty-eighth annual report, the sixtyfourth of its series, for your consideration.

Education, as a national concern, is being reviewed from practically every angle with results that reveal its good and its bad features. Public school education is engaging the greatest consideration for the reason that it has direct relation to our democratic life. Its various activities are marked by energetic efforts of national, state, and municipal governments to improve conditions and to curb excessive costs.

This national concern is revealed not only in the movement to justify the expense of public education but, from the strictly educational side, to emphasize those things that bear directly upon improvement in the life of the home-maker thus insuring the democratic flavor that is the foundation of popular government.

From current publications and from national gatherings we find that training for citizenship; equalizing school privileges so that the rural educational standards may be made somewhat more nearly equal to those of the urban communities; the advancement of the superior child through enriched curricula; educational publicity; and a better definition of the arts and sciences as related to public education, are of vital interest.

Public concern is also being manifested over the effects that modern social life is having on the young people of the land. The license of the modern dance; the unwholesome character of modern popular songs, and the lack of restraint shown by too many parents is fast turning the youth into inert, passive, and purposeless young men and women. This is confined to no one part of the country. All educational journals mention its steady growth. The increasing appreciation of public school education is clearly shown by the work of the National Bureau of Education; the enlarged pupil enrollment throughout the country; the adoption of rigid employment regulations; and the steady growth of parent-teachers' organizations.

It is clearly demonstrated that the people are willing to pay the price if they can be shown a reasonable return for the money expended in educating their children.

Our own schools, undisturbed by any unreasonable and unwarranted interference, have been at work quietly and effectively accomplishing much and accredited by all who have an intimate knowledge of their conduct.

Through frequent reports you have been kept advised of the inside life of your schools and this policy will be continued.

The greatest problem now confronting us is the furnishing of additional room for the growing pupil enrollment. This is vital for two reasons that seriously affect the lives of the pupils.

First—The added load that a teacher must carry in order to meet the requirements.

Second—The curtailment of the recitation time that each pupil should have.

The average enrollment to a room ought not to exceed thirty pupils to get the best results, but many of our schools have an enrollment of from forty to fifty. The prevailing troublesome conditions of pupil housing, may be summarized as follows:

High School—Enrollment, 564, or 64 more than building capacity. There is no room for the exclusive accommodation of the music classes, nor art, nor domestic science, nor physical drill. There is no provision for rooms exclusively devoted to supervised study. Lecture rooms, laboratories and the assembly hall are used now as recitation rooms. Next year conditions will be even worse. Parker School—Enrollment, 254, or 54 beyond capacity. No room for music and drawing. No conveniences for physical training. Domestic Arts room used for various purposes. One recitation room in basement, assembly hall erowded to the limit with desks.

Chandler School—No conveniences for the various activities of a junior high school. No hall for exercises, no laboratories. Fire risk serious.

Iron Works School—Filled to capacity. More room must be provided next year.

Rumford, Penacook, and Kimball Schools-Intermediate classes overcrowded.

Harriet P. Dame School-Lowest primary much overcrowded.

At the beginning of the first semester fifty new desks were put into the High School. A new room was opened in the Walker School to relieve the overcrowding at the Chandler School. Similar conditions called for employing assistants in the Kimball School, the Harriet P. Dame School, and the Cogswell Schools.

SCHOOL BUILDINGS.

Not for many years have the school buildings been in as good repair as they are at present. They cost a great deal for construction and much more now than they did fifty years ago. They cost more because labor is higher priced, and the construction more nearly fireproof. Not only these things but also people require more in every detail of building than in former years. Nearly all the added conveniences are furnished that the health of the children may be preserved and that they may have the best of educational training. These buildings, having been erected, need to be kept in good repair to avoid premature, and constant depreciation. The people did a wise thing in the last annual meeting when they voted a large amount of money for repairs to school buildings. Additional sums of smaller proportions should be voted each year to apply in various places so that the work of years preceding may have its full effect.

SUPERVISION.

Obituary.

Francis Treadway Clayton, assistant superintendent of schools, passed from earth on Sunday, July 29, 1923.

Mr. Clayton had been in failing health for many months but he attended faithfully to his duties until he was stricken.

He was a man of scholarly instinct and attainment, sympathetic and obliging, a tireless worker, and intensely loyal to the schools and those who had them in charge.

His ideals were refined and elevating, and his motives, honest and well-directed, were inspiring to all who worked with him.

As a deep-thinking scholar he had few equals. Free from all pretense, careful in choosing his friends and as firm in retaining them, he was the embodiment of candor, honesty, courtesy, and gentlemanly bearing.

An unusual power has been taken from the administration of our schools—one which will grow in appreciation as time goes on.

Mr. Charles W. Walker came from the superintendency in Gorham, N. H., to the assistant superintendency in Concord on Nov. 1, 1923.

Mr. Walker has brought to his work here a high degree of educational training and successful experience in the fields of teaching and school superintendency. His energy, clear thinking, and serious application are already making themselves apparent in improving the work of our schools.

SENIOR HIGH SCHOOL.

Little change has been noted in the conduct of this school. The general tone as reported last year is an improvement over that of former years. This is the one school in the system that suffers seriously each year from changes in the teaching force. While it is better to retain teachers who have been in the service for a long time, nevertheless, it is not economy to retain those who have failed to keep pace with improved methods. It may be assumed that changes will continue to occur frequently and that the best remedy which can be applied is a strong central administration in discipline and the training of the teachers in effective methods of conducting the various branches of study.

In September, 1923, twenty-eight graduates of this school entered college: seventeen from the January and June classes of 1923, ten from the classes of 1922 and one from the elass of 1920.

They entered the following colleges: Dartmouth, New Hampshire, Harvard, Amherst, Mass. Inst. Technology, Weilesley, and Smith.

Four students tried the Comprehensive Examinations of the College Entrance Board. Three entered college.

Six students took the examinations in a total of nineteen subjects. Eleven of these were passed successfully. Later four more passed and entered college.

In connection with this it must be borne in mind that many of the best scholars are admitted to college on certificate of the school and are not obliged to take the tests.

The enrollment at the present time is 564, the largest in the history of the school, and there is no room for any increase. Working conditions are extremely poor and discipline correspondingly difficult. The headmaster has done unusually well to maintain proper decorum in the face of these difficulties.

Next fall the entering class should number at least 115, and conditions will become more complex and serious.

There are now no rooms that can be set apart for the exclusive use of music, art, or domestic science and the Assembly Hall is not large enough.

Next year it may be that a part of the Assembly Hall can be fitted up with desks and kept apart for a place devoted exclusively to supervised study.

JUNIOR HIGH SCHOOLS.

These schools are working on the same curricula of studies as last year and they have justified their right to warm praise for the character of the work accomplished.

In the first-year schools we find the unity broken by being obliged to house the pupils in three different buildings. We look forward to the time when they can be housed under one roof for two years.

In the first year the work has been marked by attention given to silent reading, state-wide tests, readjustment of the work in arithmetic and revision of the course in history.

In the second year, state-wide tests have been given and also tests in silent reading. The results in music which had ebbed are now being improved rapidly, and the physical development of the pupils is better than ever before.

The training of two cadet teachers for junior high school work has been conducted in the Parker School.

The results of the annual English composition contest were strongly marked in these grades.

ELEMENTARY SCHOOLS.

The work of the elementary schools has changed little from that of the year preceding. Standards are being determined and where improvement is found necessary it will be made.

The work in standardized tests is being handled by Mr. Walker with results, as far as they have been determined, confirming the statement that your schools are efficient and up-to-date.

The tests recently given by the State Department in spelling and arithmetic for high school classes were, out of curiosity, given to Class L, the last class in the elementary grades, with the following results:

Springfiel	d, Mass., 184	6 Concord, N. H.
		Sixth Year
		Elementary Class
		Class L
$\mathbf{Spelling}:$		
Average of class,	40.6%	19.32%
Arithmetic :		
Average of class,	29.4%	60.57%

The Springfield class was a high school class three years older than the Concord class.

The same test in arithmetic was given by one teacher to a fifth grade class, after eliminating the example in interest, a subject not taken in this grade. Three of the pupils gave perfect papers.

The class J (5th grade) average was 66 2-3%.

The class K (6th grade, first half year) average was 57.14% on the examination entire.

The test in spelling, given by the State to grade eight, was passed easily by our sixth grade pupils.

The new geography is well-liked by teachers, pupils, and parents. The children are not spending a good part of their school life in bounding unimportant territory nor in memorizing the location of cities of little consequence, but they are storing their minds with facts about people, productions, commercial relations, regional causes and effects, and the relation of geographical surroundings to human progress. I invite your serious inspection of the work of the grades.

KINDERGARTENS.

A new kindergarten was inaugurated in the Dunklee Street building purchased last spring by the District for this purpose. It is one of the most cheerful, commodious rooms in the District. The large number of children attending justify its institution.

For further details of this work I refer you to the report of Miss Chamberlin under whose wise guidance, through frequent visits, careful planning, and regular meetings for discussion, the kindergartens have shown, in some cases, that they compare favorably with others in New England and the Middle West.

THE DEWEY TRAINING SCHOOL.

The enrollment in the training classes is unusually small. Only three pupil teachers are registered in the Senior class and two in the Junior class. Even though it has been decided to give remuneration for the last three semesters of their course, as yet, it is not apparent that many will enroll in the fall.

These students, being acquainted with the requirements of our schools, are a decided factor in contributing to their success both in substitutions and in regular positions.

MUSIC.

May I call your attention to the value of music as a distinct part of public education? No branch is growing more in public favor. The best regulated school systems have the various organizations of instrumental music as well as finely trained glee clubs and choruses.

These schools are furnishing free instruction on many

of the instruments that are not widely known. Others buy the various instruments to hold as school property loaning them to students having enterprise enough to learn how to play upon them. If this were done in Concord a brass band could be started at once in our high school.

Miss Eleanor S. Colburn was elected assistant to the director at the beginning of the second semester, her efforts being confined to elementary grades and rural schools. She also plays the piano for the two senior high school choruses.

The director's report deals with the different features of this subject.

DRAWING.

This work has been badly broken this year by the unfortunate illness of Miss Jones, who had been out since last September, and who passed away in March. Her place is being taken by Miss Helen C. Redfield of Bernardston, Mass. Miss Battilana has continued in the elementary work with growing success. Drawing has no home room now in any building. We cannot get results unless conveniences are furnished.

MEDICAL INSPECTION.

This department is doing solid sensible work and it should be considered an essential part of any school system. Both Dr. Day and Mrs. Upham know how to do the required work and daily prove their value to the schools. Their detailed reports should be read with eare.

Domestic Arts.

The scheme of placing the entire subject of Domestic Arts under one supervisory head has been tried out this year with success. The position was given to Miss B. Lillian

100

Barker, for a number of years teacher of sewing in these schools. She has done creditable work and gives a report elsewhere.

MORRILL SCHOOL OF MECHANIC ARTS.

This school is a very helpful and important feature in our system. It is comfortably equipped and, with the building extension, has room in which to make desired progress. I think an automobile repair department should be installed at an early date and that the present corps of instructors be retained if possible. Mr. Hartwell's report, printed herewith, gives more complete information.

School Week.

In common with those of many other cities the schools observed School Week in an extensive way.

I take this occasion to express my cordial thanks to all the citizens who gave freely of their time and energy to make the affair the noteworthy success that it proved to be; to the Board of Education for their help and encouragement and to the teachers upon whom fell the brunt of the hard work.

The program is printed in this report.

PHYSICAL TRAINING.

Physical Training is regarded a necessary part of all well-regulated school systems. The Concord schools are not behind in this respect. Mr. Eugene M. Callahan was elected physical director last spring and his earnest efforts are being felt in raising the standard of physical culture. He gives instruction in all grades of school but his efforts are largely confined to the junior and senior high schools. He also has complete charge of the athletic teams. A plan of systematic drill in all athletic work is being formulated and, in a few years, its value will be apparent. Such training includes baseball, foot-ball, hockey, basket-ball, track, boxing, and wrestling, marching and physical drill for the boys, as well as basket-ball, hockey, marching and physical drill for the girls. The boys of the senior high school take special drill once each week at the Armory under the direction of Mr. Callahan.

Miss Emily B. Pease succeeded Miss Ranney as physical instructor of the high school girls. Miss Pease easily demonstrates her worth but her work is badly handicapped through girls leaving on excuses by physicians.

I wonder if it would be much worse for girls if they were to exchange dances, moving-pictures, and ice-cream cones for such healthful physical exercise. I suggest that each girl take two fifteen minute periods each week instead of one thirty minute period. We need a gymnasium and an athletic field where certain forms of physical culture can be done to better advantage.

TEACHERS.

The success of any system of schools will be measured in a great degree by the intelligence, application, and the careful professional training of the teaching corps. The teachers of our schools as a whole can measure up to such a standard.

However capable, conscientious and well-trained a teacher may be it is not economical for her nor for the city in which she works that she does not renew her professional training and spirit at least once in three years by attending the summer session of a normal school or equivalent.

In a corps of teachers where some do this voluntarily and others have never done it, the matter of equity seems grossly violated and the amount and quality of service badly balanced. In some cities it is a requirement —in one not far from Concord. I think this is a matter that should be considered vital to the progress of our schools.

SCHOOL REPORT.

CADET TEACHERS.

The scheme of employing two cadet teachers in the junior and senior high schools received its initial trial in the fall. Two college graduates were employed, Miss Elizabeth Rogers and Miss Nina B. Stanchfield. Both have acquitted themselves well outside of their daily occupation, and have filled all the substitutions with credit, adding materially to the effective operation of the schools, no time having been lost since September, nor have we been forced to seek substitutes from the outside. The work of Miss Dickerman in formulating and conducting the training of these young women has been painstaking, intelligent and invaluable. The success of the scheme would have been questionable without her services.

Obituary.

Miss Abbie May Sanger.

Born June 26, 1872, died April 23, 1923. Began work in our schools September, 1914. Graduate of Franklin, N. H., High School, 1891. Graduate of Mt. Holyoke College, B. L., 1896. Taught French in our high school nine years.

Miss Sanger's efforts here were always directed by fine scholarship, skill and sincerity. She was particularly proficient in the teaching of French. Her loss is distinctly felt in connection with the advancement of our high school.

Miss Mary Alice Jones.

Born February 11, 1874, died March 14, 1924. Graduated from Penacook Academy, 1892. Graduated from Concord Training School, 1894. Taught in West Concord N. H., Primary School one year. Taught in Garrison School primary grades ten years. Elected Assistant Drawing Teacher June, 1913. Elected Supervisor of Drawing June, 1920.

Miss Jones was a woman of sterling worth. Her work both as primary teacher and drawing teacher was marked by unusual sincerity, faithfulness and success. She never spared any effort to raise the standard of her work and at the time of her illness was making plans for the extension of her work in hand. She was liked by all with whom she was associated and in her death our schools have suffered severely.

RECOMMENDATIONS.

1-A new high school with an adjoining athletic field.

2—That conversation classes in English, Spanish, French be inaugurated during the lunch hour in the Parker and High Schools.

3—That the dining hall in the high school be made more attractive and that table manners be improved by instruction in ethics.

4—That pupils intending to enter college be given over, for preparation, to selected teachers.

5—The consolidation of the junior high schools in one building.

6-Perfecting a consolidated junior high school orchestra.

7-Perfecting consolidated junior high school glee clubs.

8-A brass band for the high school.

9—Advanced work in art for promising high school students.

10-A parade of school children in June.

11—That a house be purchased or rented for classes in domestic arts, there being no school rooms available.

SCHOOL REPORT.

EDUCATIONAL FRILLS.

The stock in trade of the pessimist is "frills and fads." His complaint is always made in generalizations and he does not single out any particular thing that could be classified under this heading.

As a matter of fact there are no "frills" in the educational plan of today. Every subject taught has a distinct value. All these things have been put in as a result of careful thought given by intelligent people of the past and every one is proving and has proved itself to be of advantage to the children, and people who stop, listen, and think can never be persuaded to take them out. They have distinctly taken the time that used to be given to corporal punishment and the general attitude of the children shows to advantage for this very reason.

People of the past had their ideas of democracy, and their ideals in public education were formed accordingly. As time advanced, however, such ideas and ideals have undergone remarkable changes, that have suggested and demanded corresponding changes in the content of the public school curricula, the result being that those on the outside and those who had become wedded to the idea of secluding the highest forms of education began to shout "frills" and these cries came in as regularly as do some forms of human ailments.

As a matter of fact our democratic life is not any more a unit, but economically, and socially divided, and having broken the bonds that preserved that unity, although progressing rapidly along several different lines, democracy still preserves its name and its purpose. The school is always a reflection of the wishes of those who support it. A people that is not a unit socially but composed of many races that have ideas and ideals of their own which are in no wise determined by our national traditions, must be recognized in the plan of public education. The professional man thinks it wrong to teach stenography in school because it does not belong to the particular kind of education which appeals to the more brainy element of human society, yet he is constantly seeking that kind of skill in furthering his own interests.

The boy who learns the elements of any manual work is considered by them an unnecessary public expense. So it is with the girl who learns how to cook a meal, make a dress and trim her hat. The book-keeper is considered a mere instrument, a means to a given end. The boy who learns how to sing or to play in the school orchestra is declared to be without the pale of the intent of public education. Such things as these, they say, should have no place in the school curriculum.

An intelligent democracy has decreed that the affairs of common life need more attention in the public school and that school money is appropriated for the benefit of the less gifted child as well as those who have been favored by the Almighty and by better life environments.

This is one great factor in school expense and it is a paying investment for any community. The schools are not standing still but they are advancing only as fast as human life advances. When they cease to keep this pace they will not only fail, but their failure will bring about the decadence of our national democratic life.

Just so long as expense for public schools is justified by tangible evidence of progress, it will increase rather than diminish, but when this expense becomes extravagance then the schools will fail to hold together the civilization for which our forefathers prayed and fought, and the finer instincts of the people will be dulled in the same measure.

Education then is costly and it will continue just so long as the variations of common life become more complex but it will be the result of a popular demand for the particular kind of education that leads the many to higher places of living rather than the few. The cost of public education like the cost of any other municipal department is but a reflection of the public will.

Again I am privileged to express my great obligation to your Honorable Body, Mr. Walker, the teachers and all others who have assisted me in my efforts to maintain the standard of our schools.

Respectfully submitted,

L. J. RUNDLETT, Superintendent.

REPORT OF THE ASSISTANT SUPERINTENDENT.

To Mr. Louis J. Rundlett, Superintendent of Schools.

Dear Sir:

I am presenting herewith a report on the work of the assistant superintendent from November first to February first.

Evening Schools.

Two classes have been held in the high school building four nights a week under the direction of Mrs. Grace Putnam and Mrs. Grace Kelley. The beginners' class has an enrollment of 22 adults, 17 men and 5 women. Most of these students upon entrance were not able to speak, read or write English. It is very interesting to note that there are 14 of these beginners that come to the evening school even though they are over 21 years of age. The work taken up in class is based upon the conversational method. Mrs. Putnam has made extensive use of the Federal Citizenship Textbook as well as a primer on Americanization.

The advanced class, in charge of Mrs. Kelley, has had a total registration of 27 adults, 23 men and 4 women. Several of these students attended the evening classes held last year and are now doing more advanced work in reading, spelling and arithmetic. The nationalities represented in these classes are French, Swedish, Greek, Italian, Portuguese, Norwegian, Spanish, and American.

The attendance in both classes has been very satisfactory, and great praise must be given to these students that report four evenings a week at the high school after a day's hard work in the quarries, workshops or stores.

Educational Tests and Measurements.

The most progressive schools are making wide use of standardized tests both for the purpose of finding out how well the schools are teaching the fundamental subjects and of making methods of instruction more helpful to the individual child. Standardized tests vary chiefly from the ordinary examination given by teachers in that they have been much more carefully prepared and have been given to a very large number of children throughout the country. From a study of the results obtained on these tests, definite norms or standards are set for pupils in particular grades or at particular ages.

It is stated in the Virginia Public School Survey that "a valid survey of any school must inquire how well the pupils are learning to read, how well they add, subtract, multiply and divide, how well they express their own ideas. Any interested parent will make these inquiries about the schooling of his own child. As an intelligent citizen he may ask these questions about other children than his own, and as a responsible public official he may demand to know in the most accurate possible terms just where the schools of his state stand in the service they are rendering to the children of that state."

For the purpose of answering these questions the use of standardized tests in arithmetic, spelling, oral reading, silent reading and handwriting is invaluable. Assistant Superintendent Clayton did very much helpful work along the lines of measuring the silent reading abilities of pupils in the various elementary schools. Using his results as a basis. I have endeavored to carry along the tests in oral and silent reading, spelling and arithmetic. Approximately 2000 children in classes E through V have been given spelling and reading tests. The results, as a whole, were commendable and show that the Concord schools are up to standard in both spelling and silent reading. The tests have revealed to the teachers some weak spots in the grades as well as some of the strong points. About 100 · pupils in classes C and D were tested on their ability to read orally and the results secured show that the children in these particular classes are about a year ahead of the children in the same classes in numerous other cities.

The primary value of these standardized tests, however,

is not to show how one grade or one school system compares with another grade or another school system but to reveal to the teacher just what points she needs to emphasize most.

It is recommended that standardized tests be used more extensively and that the results of these tests be used in determining definite standards of achievement for each grade.

The Concord High School.

It is one of the duties of the assistant superintendent of schools to devote a large part of his time to supervision in the senior high school. The problems in this particular field are great. The frequent changes of teachers, the different curricula, the fact that a large number of pupils come from surrounding towns, the congested conditions making it necessary to use the laboratories and the assembly hall for recitation purposes, all these create conditions that call forth the best efforts on the part of the headmaster and teachers if the standards of the school are to be maintained.

During this semester the teachers in the junior high schools, the Parker school, and the senior high school are to work through committees with the definite purpose of revising and making more definite the courses of study in the high school. The English teachers have already started their task and it is hoped that within a short time the results of their efforts and investigations will be put in print, not only that the school officials may know, but also that the students and parents may have at hand detailed knowledge of what is expected of pupils in the Concord high school.

In conclusion I wish to express my appreciation of the co-operation of the teachers and of the helpful advice of the superintendent.

Respectfully submitted,

CHAS. W. WALKER,

Asst. Supt. of Schools.

110

REPORT OF THE MEDICAL INSPECTOR.

Mr. Louis J. Rundlett, Superintendent.

Dear Sir: The work of medical inspection in the schools of Union School District for the first semester of 1923-1924 may be summarized as follows:

(1) Routine physical examination of 1974 pupils, carefully recorded, with notification of parents regarding all defects that demand the attention of their family physician.

(2) Provision for daily milk lunches in the West Concord schools, in addition to those already served in the city. Arrangements have been made for more effective distribution of free milk to needy, undernourished children, at the discretion of the teachers—a plan that has proved most satisfactory to all concerned. In the rural schools, in which pupils are obliged to bring their noon lunches, facilities for hot cocoa or soup have been provided.

(3) Sanitary inspection of all the school buildings in the district. Improvement in sanitary conditions is in progress, and plans are being made for putting all buildings in up-to-date condition.

(4) The dental clinic—The work of this department is highly satisfactory, and the physical examination of upper grade pupils shows extraordinary results of the early treatment of their teeth. A detailed report of this clinic is submitted herewith. This work, as well as the large number of routine physical examinations during the semester, would have been impossible without the assistance of Mrs. Upham, the school nurse, who has taken an active interest in these activities.

The one discouraging factor in the work of health inspection is the reluctance on the part of many parents to heed suggestions as to correction of defects shown by physical examinations. The pupils themselves, however, are developing a genuine interest in their health, which will have an important influence in that direction in the future.

I wish to express my appreciation of the hearty co-operation of the superintendent, the teachers, and associates in the office, which has made the work of the new medical inspector, a most agreeable one.

Respectfully submitted,

ARTHUR K. DAY, M.D., Medical Inspector. REPORT OF THE SCHOOL NURSE.

February 1, 1923, to February 1, 1924.

Assisted Medical Inspector at Routine Examination of pupils.

Visits to schools and homes for consultation with pupils. teachers, and parents.

Visits to officials, doctors, etc., to make arrangements for treatment.

Respectfully submitted,

HELEN Y. UPHAM, R.N.

REPORT OF PHYSICAL DIRECTOR.

Mr. Louis J. Rundlett, Superintendent of Schools,

Dear Sir: I am hereby presenting my report on the work of physical instructor for the year 1923-1924. This report deals briefly with instructions given, schools benefitted and recommendations for improvement.

Instruction has been given in the following athletic exercises and games: football, baseball, basketball, track, hockey, boxing, wrestling, marching tactics and physical drills.

The Senior High School and Junior High Schools (Parker, Walker, Garrison and Chandler) received the most benefit from these instructions.

The greatest improvement shown was in the National Playground Association Tests given at the Parker School.

There is a vital necessity for a gymnasium in our school system.

"A close observer of youth cannot refrain from the belief that the softening influences of modern social life have already exercised a benumbing effect on youth."

A suitable place where track athletics can be developed should be proposed and a committee appointed to investigate the matter.

Respectfully submitted,

EUGENE M. CALLAHAN.

Dear Sir: A class for Physical Drill meets weekly from 2.30 to 3 o'clock, each day.

Classes V and U (one half)	Monday
Classes T and U (other half)	Tuesday
Class S W	Vednesday
Class R	Thursday
Class Q	Friday

The gymnastic movements are chosen and formed with the object of giving the body an all round harmonious development. Special stress has been laid on those exercises correcting round-shoulders and hollow-back, as the greatest need for these exercises has been found among the pupils.

Each pupil is required to wear bloomers for the class, so that she may perform the exercises more easily and derive the greatest advantage from the work.

A number have been given special corrective movements to do outside of their regular class time, the policy of the work in general being to bring all the pupils up to a standard form.

The above individual efforts have added much in accomplishing this end.

EMILY B. PEASE.

REPORT OF THE PRINCIPAL OF THE MORRILL SCHOOL OF MECHANIC ARTS.

Mr. Louis J. Rundlett, Superintendent.

Dear Sir: In submitting this brief outline of the activities of the Morrill School for the past year, I am pleased to report a steady improvement in the work accomplished, methods of instruction, condition of equipment and general morale of teachers and pupils. It is worthy of note that while we, as a school unit, have performed our full share in the promotion of education during "School Week" and at other times, and have answered every call made upon us for assistance or co-operation, not a single teacher or pupil has been heard to complain. The action of the Board of Education in taking out Liability Insurance covering teachers and pupils has caused favorable comment from the press in all parts of the country.

Teachers.

For the first time since serving as the head of this department, I have had the satisfaction of working with a full staff of trained teachers. In my opinion, it is impossible to over-estimate the advisability of retaining teachers of proven worth. I feel sure that I second your own opinion when I say that the right kind of teacher becomes, through years of real service, a vital, loyal, and efficient power in a school system. It seems unnecessary to mention in detail the individual work of each teacher. They have all performed their respective duties efficiently and conscientiously and I trust every reasonable effort will be made to keep the Morrill School staff intact for the year 1924-25.

Equipment.

The installation of a second-hand linotype machine to our printing department has added much to the educational scope of this department and to its efficiency in producing projects of value to the school district.

The installation of an iron planer, surface-grinder, profiler, and bench-grinder, purchased of the Crawford Manufacturing Company, completes the equipment of this department. It may be desirable to add accessories or special attachments for the machines we already have, but on the whole I shall not recommend more equipment for this shop.

The sink placed in Room 5 has proved a real benefit to Mr. Wilcox. It has saved a great deal of time for the pupils and has been the direct cause of improvement in the discipline in this room.

It seems fitting that I should mention the two wood-turning lathes loaned indefinitely to the school by the Durgin Silver Manufacturing Company.

Projects.

Several large community projects have been completed this year, among which were the toboggan-slides and extra sections for the "Gun Club Ground" bleachers. Our regular school projects have been similar to those used in previous years.

Recommendations.

The only expensive machine which I believe to be greatly needed is a surface-planer for the wood-working departments. However, I shall not recommend its installation at this date. Nevertheless, I have three recommendations to make, which, if acted upon, will improve the efficiency of the school.

First: A new teacher should be added to the staff, having the necessary qualifications to present the related and academic subjects. The Parker School classes have become so large that it is necessary to divide each of them into three parts for shop work and two for history, which you see presents new complications in making out our schedule. It is also desirable that we have at least one class in English for such pupils as have failed and find it impossible to get into the regular fourth course English in the High School. The addition of this teacher would enable us to care for the Parker School pupils throughout the entire forenoon session, which would not only save each pupil nearly one-half hour per day, but would remedy the disadvantages manifested in passing between the Parker and Morrill Schools. The program for the Parker School pupils would then be something like this:

A. M.	Morrill	School	P. M. Parker School	
History	, Shop,	Study	Assembly, Math., Eng.	

To the staff should also be added a student Second : assistant capable of assisting in the machine, wood-working, and electrical laboratories. It is almost impossible at the present time for Mr. Wilcox with his full schedule and his large over-equipped room to keep his equipment and records in proper condition. It is nearly impossible, also, for us to do outside work for the District such as installing electric lights, putting up wall-board at the Garrison School. etc., because our classes are so large that it is impractical for a teacher to take his entire class with him on outside work The classes in electricity are also too large to be handled efficiently, even in our well equipped electrical department, without dividing each class into two groups. It has also become necessary to divide grade classes into two and three sections. Furthermore, if a teacher happens to be sick, in most cases, it is impossible to provide instructors for his classes while he is absent. Up to the present year I have been able to claim that regardless of extra work or the absence of teachers the school routine was continued without a break

Third: A clerk, preferably a young man from the commercial department, should be installed. If the records of this office and other routine clerical work were to be maintained as I would like to have them, it would be necessary for me to spend practically all my time at the

122

desk. With nearly five hundred boys to account for, the necessary state reports and other records required, and the great amount of equipment and supplies to check and record, it is at once evident that a clerk is as greatly needed in this school as in any other school in the district. A clerk in the office would not only give me more time to supervise the work of the school but would give me time to follow up pupils who leave the school, either before or after graduating. This phase of my work is becoming of great importance. Business men are asking for our boys and each year I am doing more placement and follow-up work. You will no doubt recall that my predecessors were allowed pupils from the commercial department for one week at a time which enabled these girls to be of great assistance to the Supervisor. Since I have had the school, however, I have been allowed a pupil from the commercial course for only a few periods at a time and rarely, if ever, two days in succession. You will see that outside of copying or writing short letters, their services are of little use.

In making the above recommendations, I wish to call to mind that when I assumed this work, it was required that I strive to improve the school and to increase its activities. I have bent every effort to do this and in making these suggestions I am but endeavoring to carry out requirements.

Conclusion.

In conclusion, I wish to express my sincere appreciation of the loyal and kindly support given me during the past six years by the Board of Education, and all others with whom I have been associated in maintaining the excellent standard of this school.

Respectfully yours,

ROLAND G. HARTWELL,

Principal.

CITY OF CONCORD.

REPORT OF THE SUPERVISOR OF HOME ECONOMICS.

Concord, N. H., Feb. 16, 1924.

Mr. L. J. Rundlett, Supt. of Schools, Concord, N. H.

Dear Sir: From February to June, 1923, the work of the Sewing Department only was under my supervision, and made progress which compared favorably with that of other years. The number of electives in the Parker and Senior High Schools showed a real desire for this work.

In September, the Cookery and Sewing Departments were combined and the Fifth or Home Economics Course was again put into the school curriculum. Of the 27 girls who elected this course, 21 are continuing the work; four have left school, and two have changed to other courses. Eighteen pupils elected the course in February—this indicates that Home Economics is not only wanted, but needed by girls.

Little change has been made in the Sewing Course for classes I, J, K, and L.

Instead of alternating the sewing and cookery in classes M and N, cookery has been taught in class M, and sewing in class N, the unit system being used. The work of this year is so planned that the pupil may know whether or not she wishes to elect the Home Economics Course in the Parker School.

The cookery in Class O has been practically the same as that for Class M only more advanced and requiring more study. The practical work done has been on a much larger scale, as the lunch-room provides a market for the food. However, this "market" should not be used to such an extent that it hinders the progressive course mapped out. During Educational Week, the girls of this class served two dinners; one to the Rotary Club and one to representatives of the various women's organizations in the city. There was also an exhibit, or rather demonstration of work in the corridor of the City Hall on School Night. The serving of dinners is good practice for the girls and more such work could be done, but the present equipment is far too limited.

The sewing of this class has included the making of a set of underwear, a woolen dress and the hemming of table linen and the study of cotton and wool from the cultivation of the fibre to the manufacture of cloth. Millinery is included in the spring term. This department is more fortunate, in that the equipment needed to carry out a course is less than that required in the cookery department.

The Art and Music were not included in the Course during the first semester; the art, because of the illness of Miss Jones and the music for other reasons.

The Household Management, Organization, etc., in the Senior High School have not been included in this department, but should be, in order that the work may be more closely connected.

I sincerely hope that the Home Economics Course may become permanent, but suitable accommodations must be found if the interest of the girls is to be maintained until the new high school becomes a reality. There will be 21 girls in Class Q, 18 in P class and, I feel very sure of an equally large O class in the fall. Advanced work cannot be given with the present equipment.

Very truly yours,

B. LILLIAN BARKER, Supervisor of Home Economics.

REPORT OF THE SUPERVISOR OF MUSIC.

Mr. L. J. Rundlett, Superintendent.

Dear Sir: Two methods of teaching music in the public schools are advocated by leading educators at the present time. One is the so called Song Method, while the other places more emphasis upon sight reading.

The Course of Study in music in the Concord schools has been arranged and conducted in the firm belief that every child should have the opportunity to learn to read music and that his enjoyment and appreciation of the art will be greatly increased by doing so.

Rote singing is taught in the lower grades and songs are in use in all grades, but above the second year, all music sung by the pupils is taught by note, that is, by the use of the syllable names and the movable doh. A brief synopsis of the Course of Study for the Elementary Schools accompanies this report.

Any method of teaching or course of study must, however, be judged and its value determined by the result of its practical application.

We have some excellent reading and singing in the elementary schools, much that is good and a little that is only fair. This estimate is based upon a comparison of the work here with that which I have heard in Boston, Hartford, Springfield, and in other Massachusetts cities.

In the Massachusetts cities which I have visited, about thirty per cent more time is allowed for music in the schools than is allowed here.

In the Kimball School Class K during last semester there was as good three part singing as I have ever heard in a like grade anywhere.

In classes M and N in the Chandler and Walker Schools we have really creditable four part work.

Owing to conditions which do not now exist, the singing in the Parker school during last term was not up to its usual standard of excellence.

The chorus singing in the Senior High School is better than for some time. One practice period of twenty-five minutes per week would not be enough to produce very good results even with a selected group of one hundred adult voices. The spirit of the school is good and they work willingly and do as well as they can under the circumstances.

During the last semester the H. S. Girls' Glee Chub of fifty-five members was the largest in the history of the school. The Boys' Glee Club was small. Athletics and "work after school" kept many away. This term it is much larger and were it not for the scarcity of first tenors should do excellent work.

The Senior High School Orchestra last term was as good as any that we have had.

An orchestra made up of pupils from the Junior High schools has been organized and meets for practice weekly at the Parker School.

A choir of mixed voices, for practice in part singing, has also been organized at the Parker School with a practice period of forty-five minutes on Tuesday afternoons after school.

A small orchestra in the Garrison School is at work upon the Toy Symphony by Haydn, and a Girls' Glee Club has recently been formed for the practice of two and three part singing. Credit for this should be given to Miss Hickey, the very efficient principal.

Miss Colburn, Assistant Teacher of Music, is taking charge of the work in classes A to H inclusive, which she visits weekly. Miss Colburn also plays the piano for two Senior High School choruses and visits the Riverhill and Mountain Schools once in two weeks.

Her assistance is very greatly appreciated, as now, with the exception of the outlying schools, each room will be visited at least weekly and more time will be given to the various musical activities in the high schools.

Military bands have been organized in many city high schools, especially throughout the West. We have in our Senior High orchestra three cornets, two clarinets, one trombone and drums. This would give us a nucleus for such an organization here. We need, in addition to those mentioned, two melophones, one trombone, one baritone and one E-flat bass.

One melophone has been bought and is in the hands of a Parker School student. The four instruments needed would cost, at second hand, about one hundred and sixtyfive dollars. If new ones were bought, fifty to seventyfive per cent more. I wish very much that these instruments could be secured at once and put to immediate use.

I cannot close this report without expressing my sincere appreciation of the very cordial attitude taken by all connected with our schools (from the Members of the Board of Education and Superintendents, down through the teachers and pupils of the various grades) towards that particular branch of the educational tree with which I am fortunate enough to be connected. To every one I extend my hearty thanks.

Very respectfully,

CHARLES S. CONANT.

SCHOOL REPORT.

REPORT OF THE SUPERVISOR OF KINDERGARTENS.

Mr. Louis J. Rundlett, Superintendent of Schools.

Dear Sir: I hereby submit my report as Supervisor of Kindergartens for the year ending February, 1924.

In September, 1923, a new kindergarten was opened at the South End in the building on Dunklee Street recently purchased by the district. At no great expense in the matter of equipment this has been made into one of the most attractive kindergartens in the city. The school situation; attractive class of children; average number enrolled; large room, freedom of building and playground gives possibilities that might make conditions almost ideal.

During the last year many changes have been made in the equipment of the various kindergartens. In all kindergartens except the Kimball and the Walker, the long tables have been cut in two. The smaller table is easier to handle, a big item in small rooms where tables must be moved several times during the morning.

Block boxes have been made for all kindergartens except the Dunklee and the Kimball. In these boxes the larger building blocks are kept. More and more the small individual boxes of Frobelian material are being disearded, the blocks being "dumped" into a large box to be used as the child wishes. This does away with the strain of opening boxes; it also gives children more choice in selecting what they need.

A set of Hill floor blocks has been added to the Dewey equipment. It has been interesting to watch the children working with these blocks. At first the pleasure in using the large blocks and experimenting with them satisfied. Since Christmas, however, the work is progressing. More definite ideas in building are being shown, more blocks are being used, and the interest carries over to the next day. Before the year ends I hope for some project which will serve as a center for other group activities.

While I appreciate the fact that Hill blocks are still a "luxury," I feel that larger building material should be put in all the other kindergartens. This added material calls for the use of the child's larger muscles and also gives chance for more worth while work.

The tendency now is toward discarding all the finer "occupation" materials such as small pegs, card board sewing, paper weaving, etc., and using only those that will not cause strain to the nervous high strung child of today. Some of the discarded material at the Dewey has been loaned to Mrs. Lewis to use with her smaller children at play time, and to Mrs. Meade in her room at the Walker.

The pianos in some of the kindergartens are very bad. As the "beginnings" of music start in the kindergarten, it is unfortunate to have such conditions.

The suggestion was made in June that each kindergartner begin in the fall with an informal socially organized group. Definite directions were given to be tried out for a week or so, the result to be noted and discussed at the first Teachers' meeting in September when the course of action would be decided upon. This was done with the following outcome.

The Dewey, Garrison, and Kimball have continued working along these same lines of "purposeful activity on the part of the child," using the project method as the method of teaching and child development. The Dunklee, Rumford, and Walker are using more conservative formal methods, although some choice is left to the children. The change in method was to be entirely voluntary on each teacher's part, as lack of interest, unwillingness to cooperate and unfamiliarity with methods may lead to dangerous results. The teachers at the Garrison and Kimball agree that while this first year is hard and discouraging they have faith to see that it tends to bring out the best in the child's development and the results gained fully repay the efforts made.

Constant "checking up" on the part of the teacher is necessary to see that the children are progressing and in the right way. It is almost impossible to keep individual daily records of forty children, but the little bit jotted down each day is surely better than no record at all.

The number of visitors in each kindergarten is very gratifying. Opportunity to see the children working in their normal conditions counts for more than special days.

The number of children enrolled was larger this fall than that of last year.

Four new assistants were elected this fall. Each one is doing good work, and while inexperience is a handicap in some ways, this is offset by enthusiasm which is a valuable asset to any kindergarten.

Milk lunches are served in every kindergarten with the exception of the Dunklee. I believe they are to be put in here later.

Meetings of all the kindergartners are held on Tuesdays at stated intervals. The number held last year was twelve. The number held this year to date, seven. At these meetings items of interest in kindergarten education, both practical and theoretical are discussed and kindergarten news both local and general are exchanged.

Personal visiting in the various kindergartens is not an easy thing to bring about. With a large kindergarten of my own, the daily attendance good, an inexperienced assistant, frequent visitors, and special days it is hard to get away even for part of the morning. This fall I suggested that the kindergartners visit me, and so far four visits have been made. Discussions at teachers' meetings, informal conferences with individual teachers help to keep me in touch with the work being done. In discussing the kindergarten situation of other places both in New England and the Middle West, I find our standards compare favorably. In some respects we have superior conditions, and in other ways we do not fare so well.

I wish to acknowledge here my appreciation of the kindly spirit and friendly cooperation of the different kindergartners working with me, the courtesies shown by the Board of Education, and the interest and helpful advice you have so generously given.

Respectfully submitted,

IYLA CHAMBERLIN, Kindergarten Supervisor.

MEDAL WINNERS

Mary Esther Cushing—"Keeping One's Word" Lawrence Ilsey Duncan—"The Parallels and Meridians of Life"

CITY OF CONCORD.

SCHOOL WEEK.

November 18 to November 24, 1923.

PROGRAM.

SUNDAY, NOVEMBER 18.

"FOR GOD AND COUNTRY DAY."

SLOGAN—"A Godly Nation Cannot Fail."

The pastors of all the different churches have been invited to preach about EDUCATION on this date.

The various Fraternal Organizations have been asked to observe this week in their own way.

MONDAY, NOVEMBER 19.

"AMERICAN CONSTITUTION DAY."

SLOGANS—"Visit the Schools Today." "Ballots, Not Bullets."

SPEAKERS IN THE SCHOOLS.

Cogswell School	8.30 A.M.	Mrs. Evelyn A. Knapp
Dewey School	8.30 A.M.	Mrs. Charles H. Carroll
Franklin School	8.30 A.M.	Mr. Amos Blandin, Jr.
Harriet P. Dame School	8.30 A.M.	Mr. Ray Crowell
Rumford School	8.30 A.M.	Mrs. Robert Jackson
Dunklee St. School	8.30 A.M.	Mrs. Nelson M. Knowlton
Riverhill School	9.00 A.M.	Mr. Richard T. Smith
Iron Works School	10.00 A.M.	Mrs. Robert Jackson
Eastman School	10.00 A.M.	Miss Myla Chamberlin
Mountain School	11.00 A.M.	Miss Myla Chamberlin
Chandler School	11.00 A.M.	Dr. Henry H. Amsden
Parker School	12.45 P.M.	Mr. Andrew L. Felker
Millville School	2.00 P.M.	Rev. Dr. Samuel S. Drury
Garrison School	2.30 P.M.	Mr. Ervin W. Porter
Walker School	2.45 P.M.	Rev. Robbins W. Barstow
Kimball School	2.45 P.M.	Rev. W. Stanley Emery
Penacook School	2.45 P.M.	Rev. Percy A. Kilmister

TUESDAY, NOVEMBER 20.

"PATRIOTISM DAY."

SLOGANS—"Visit the Schools Today." "America First."

High School	8.30 A.M.	Mr. Harry F. Lake
Parker School	12.00 M.	Concord Rotary Club

The club will hold its regular weekly meeting and take lunch at the school. Patriotic exercises will be given by the pupils.

At various times during the day all the other schools hold special exercises appropriate for the occasion.

WEDNESDAY, NOVEMBER 21.

"ILLITERACY DAY."

SLOGANS—"Visit the Schools Today." "America First."

At various times during the day special exercises will be held in the various buildings.

PRINTING HOUSE CRAFTSMEN.

MORRILL SCHOOL.

6.30 P.M.

The Concord District Club of Printing House Craftsmen will hold its regular monthly meeting in the Morrill School of Mechanic Arts. Mr. E. K. Jenkins, Director of Vocational Education for the State of Maine, will address the Club and conduct a round table discussion. Following the meeting the members and their guests will inspect the equipment and school work. Lunch will be served in the High School by a class of girls from the Domestic Arts Department.

11

CITY OF CONCORD.

WALKER SCHOOL

The Dental Clinic will be open all the afternoon. All citizens are invited to look at the work.

TO THE CITIZENS OF UNION SCHOOL DISTRICT:

Will you please make it a point to visit the schools not only during this week but at all other convenient times so that you may see what the schools are doing and give added stimulus to the work?

SCHOOL REPORT.

ANNUAL SCHOOL MEETING WARRANT.

STATE OF NEW HAMPSHIRE.

To the Inhabitants of Union School District in Concord, N. H., qualified to vote in district affairs:

You are hereby notified to meet at the Auditorium on Prince Street, in said district, on the fifth day of April, 1923, at 7.30 o'clock in the evening, to act upon the following subjects:

1. To choose a moderator for the ensuing year.

2. To choose a clerk for the ensuing year.

3. To hear and act upon the report of the Board of Education for the past year.

4. To choose three members of the Board of Education to serve three years to fill the vacancies arising from the expiration of the term of office of Bennett Batchelder, Elisabeth R. Elkins, and Joseph S. Otis.

5. To choose one or more auditors for the ensuing year.

6. To see what sum of money the district will raise and appropriate for the payment of the debts of the district.

7. To see what sum of money the district will raise and appropriate for the support of the schools for the ensuing year.

8. To see what sum of money the district will raise and appropriate for special repairs and general upkeep of the school buildings of the district. 9. To see if the district will authorize the Board of Education to sell the Millville school buildings to be made vacant by the occupation of the new buildings.

10. To see if the district will authorize the Board of Education to purchase the lot and building located on the east side of Dunklee Street and now owned by John A. Cate, raise and appropriate money for the same, which is to be used for kindergartens and other public school purposes.

11. To transact any other business that may legally come before said meeting.

Given under our hands this fifth day of March, 1923.

HARRY F. LAKE, ELISABETH R. ELKINS, OSMA C. MORRILL, W. STANLEY EMERY, BENNETT BATCHELDER, CHARLES DUNCAN, DOROTHY B. JACKSON, C. H. FOSTER, JOSEPH S. OTIS, Board of Education of Union School District.

A true copy of the original warrant. Attest:

HARRY F. LAKE, ELISABETH R. ELKINS, OSMA C. MORRILL, W. STANLEY EMERY, BENNETT BATCHELDER, CHARLES DUNCAN, DOROTHY B. JACKSON, C. H. FOSTER, JOSEPH S. OTIS, Board of Education of Union School District.

RECORD OF ANNUAL MEETING.

In accordance with the foregoing warrant a meeting of the legal voters of Union School District was held at the City Auditorium in Concord, N. H., on Thursday, April 5, 1923, at 7.30 o'clock p. m.

Because of a vacancy in the office of moderator due to the death of Louis C. Merrill, the meeting was called to order and the warrant read by Ray E. Burkett, clerk of the district.

ARTICLE 1. On motion of Henry H. Metcalf the clerk was instructed to cast one ballot for Arthur P. Morrill for moderator of the district for the ensuing year, and he was declared duly elected moderator and took the oath of office before Ray E. Burkett, Justice of the Peace.

ART. 2. On motion of Rev. W. Stanley Emery the moderator was instructed to cast one ballot for Ray E. Burkett for clerk of the district for the ensuing year, and he was declared duly elected and took the oath of office before the moderator.

ART. 3. On motion of Henry E. Chamberlin it was unanimously

Voted: That the reading of the report of the Board of Education be dispensed with, and that the report as printed be accepted and placed on file.

ART. 4. On motion of Henry H. Metcalf it was unanimously

Voted: To proceed to the election by ballot of three members of the Board of Education to serve for a term of three years and that the polls remain open for the reception of ballots until 8.15 o'clock; and that the modterator appoint three tellers to sort and count the ballots.

The moderator appointed as tellers Ernest P. Roberts, Frank W. Brown, and Miss Elisabeth Parker.

At 8.15 o'clock the moderator declared the polls closed, and announced the result of the vote as follows:

Total number of ballots east	342
Necessary for a choice	172
Dr. E. S. Sullivan had	1
Persis Metcalf had	1
James M. Langley had	1
Grace P. Amsden had	1
E. K. Woodworth had	$\frac{2}{2}$
W. L. Stevens had	3
Bennett Batchelder had	334
Joseph S. Otis had	337
Elisabeth R. Elkins had	338

and Bennett Batchelder, Joseph S. Otis, and Elisabeth R. Elkins were declared duly elected members of the Board of Education for a term of three years.

ART. 5. On motion of Burns P. Hodgman, duly seconded, Henry H. Metcalf, and John P. George were unanimously elected auditors of the district for the ensuing year.

ART. 6. On motion of Harry F. Lake, duly seconded, it was unanimously

Voted: That there shall be raised and is hereby ordered to be raised by tax on the polls and ratable estates within Union School District, Supervisory Union No. 8, the sum of Nineteen Thousand Ninety-Five Dollars (\$19,095), of which sum Twelve Thousand Dollars (\$12,000) shall be appropriated for the payment of the bonds maturing July 1, 1923, and October 1, 1923, and Seven Thousand Ninety-Five Dollars (\$7,095) for the payment of the interest on its bonded debt accruing during the year.

170

ART. 7. On motion of Carl H. Foster, duly seconded, it was unanimously

Voted: That there shall be raised and is hereby ordered to be raised by tax on the polls and ratable estates within Union School District, Supervisory Union No. 8, and appropriated for the support and the general administration of the public schools for the ensuing year, such a sum as, in addition to the amount required by law, will amount to the sum of Two Hundred Forty-Nine Thousand, Nine Hundred Sixty and 69/100 Dollars (\$249,960.69).

ART. 8. Bennett Batchelder read a detailed statement of estimated amounts required for repairs to the property of the district during the coming year, and on his motion, duly seconded, it was

Voted: That there be raised and is hereby ordered to be raised on the polls and ratable estates within Union School District and appropriated for special repairs to school buildings the sum of Seventeen Thousand One Hundred Dollars (\$17,100).

ART. 9. On motion of Joseph S. Otis, duly seconded, it was unanimously

Voted: That the Board of Education be authorized to sell by public auction, or to the highest bidder in private sale, the buildings to be made vacant by the occupation of the new school buildings at Millville, and directed to enter the sum received by the sale to the credit of Union School District.

ART. 10. On motion of Dorothy B. Jackson it was

Voted: That the Board of Education be authorized to purchase of John A. Cate his lot on the east side of Dunklee Street held under option of purchase by Union School District, and that the sum of Fifteen Hundred Dollars (\$1500) be raised and is hereby ordered to be raised on the polls and ratable estates within Union School District and appropriated for the purchase of said lot.

ART. 11. On motion of Ira Leon Evans it was unanimously

Voted: That Dr. Samuel S. Drury, John D. Bridge, Fred C. Demond, Burns P. Hodgman, and John S. B. Davie be appointed a committee of citizens to assist the Board of Education, or a committee thereof, to make an investigation of housing conditions in Concord so far as such conditions relate to the schools thereof, and report to the District not later than November first, 1923, with any recommendations that to them seem wise on the facts disclosed, particularly as to a new High School building, or any other school buildings, or any school building program, and any other matters relating thereto.

On motion of Harry F. Lake the meeting adjourned.

A true record. Attest:

RAY E. BURKETT, Clerk.

A true copy of the record. Attest:

REPORT OF THE BOARD OF WATER COMMISSIONERS.

Concord, N. H., February 7, 1924.

To the Mayor and Board of Alderman of the City of Concord:

We hereby submit the annual report of the Superintendent of the Water Works for the year ending December 31, 1923.

The report is in detail, giving full and complete information of the standing of the Water Works at the end of the year.

You will notice that the bonded debt has been reduced from \$575,000—January 1, 1911, to \$234,000—January 1, 1924.

The receipts from the Water Department hereafter will be sufficient or more than sufficient to meet annually the bonds which become due each year.

Respectfully submitted,

NATHANIEL E. MARTIN, HARRY H. DUDLEY, FRANK P. QUIMBY, BURNS P. HODGMAN, JOHN B. ABBOTT, GEORGE T. KENNEY, CARLOS H. FOSTER, MELVIN L. TOWLE, HENRY E. CHAMBERLIN, ex-officio, Board of Water Commissioners.

IN MEMORIAM

OLIVER J. PELREN

Born at Concord, N. H., January 8, 1856 Died at Concord, N. H., June 3, 1923

> Member of the Board of Water Commissioners, 1918-1923

Resolved: That the Board of Water Commissioners at this time record their appreciation of the faithful services of OLIVER J. PELREN, who held it an honor to serve his native city as a member of the Board of Water Commissioners.

They also desire to express their deep sense of loss by his death, of a valued friend and wise counsellor.

REPORT OF THE SUPERINTENDENT.

To the Board of Water Commissioners:

I herewith present to you the fifty-second annual report of the operations of this department, showing the receipts. expenditures and abatements, together with a statement of the extensions and improvements made during the year ending December 31, 1923.

Receipts.

For water from consumers at fixed		
rates,	\$9.907.42

EXTENSIONS AND IMPROVEMENTS.

Distribution pipes laid in 1923:

Bridge Street, east from North Main Street, 195 feet of 8-inch pipe.

Rumford Avenue, east from Hall Street, 875 feet of 6ineh pipe.

Broad Avenue, west from Broadway, 812 feet of 6-inch pipe.

Wood Avenue, west from Broadway, 289 feet of 6-inch pipe.

Dunklee Street, extended south to Holly Street, 415 feet of 6-inch pipe.

Holly Street, extended west to Dunklee Street, 30 feet of 6-inch pipe.

Clarke Street, West Concord, extended east, 118 feet of 6-inch pipe, replacing $1\frac{1}{4}$ -inch pipe.

Also 215 feet of $1\frac{1}{4}$ -inch and 655 feet of 1-inch pipe.

On hydrant branches, 10 feet of 8-inch and 45 feet of 6inch pipe.

Total length of main and distribution pipes now in use, 386,205 feet, or 73.15 miles.

Seven gates were added during the year; total number now in use, 1,082.

Four new hydrants have been set as follows: On Bridge Street, high service, on north side at Carpenter's paint shop; on Broad Avenue, 500 feet from Broadway; on Rumford Avenue, at east end; on Clarke Street, West Concord, at east end.

Total number of hydrants now in use, 475.

Ninety-one services have been laid, consisting of 1,708 feet of 3/4-inch; 388 feet of 1-inch; 120 feet of 11/4-inch; and 120 feet of 2-inch pipe.

Three 6-inch high service connections have been made for sprinkler service for the following premises: Hoyt Electrical Instrument Works, Harry G. Emmons, and Phenix Hotel.

Fourteen services have been discontinued. Total number now in use, 4,038.

Total length of service pipes, 95,731 feet or 18.13 miles.

Eighty-four services have been relaid and curb valves placed on 43 old services.

Seventy-eight new meters have been set and 2 meters have been removed, making total now in use, 2,843.

Respectfully submitted,

PERCY R. SANDERS, Supt.

REPORT OF THE ENGINEER AT PUMPING STATION.

PUMPING STATION, CONCORD WATER WORKS.

P. R. Sanders, Superintendent:

Sir: I would report that the pumping machinery at the pumping station, including boilers is in good working condition.

Both steam pumps have been turned over every two weeks by high service pressure to see that they were in good working order.

Months.	Total days pumping.	Total hours pumping	Average hours pumping.	K. W. H. monthly.	Daily average K. W. H.	K. W. H. per 1,000,000 gallons.	Total gallons pumped Venturi meter.	Pints of oil.	Pounds of packing.	Pounds of waste.	Pounds of coal heating.

SUMMARY OF STATISTICS.

FOR THE YEAR ENDING DECEMBER 31, 1923.

CONCORD WATER WORKS.

CITY OF CONCORD, COUNTY OF MERRIMACK, STATE OF NEW HAMPSHIRE.

GENERAL STATISTICS.

Population by census of 1920–22,167.

Date of construction—1872.

By whom owned-City of Concord.

Source of supply-Penacook Lake.

Mode of supply—Gravity, also pumping to reservoir for high service and fire protection.

PUMPING.

Builders of pumping machinery—Worthington Pump and Machinery Corporation.

- 1 triple expansion horizontal engine, capacity, 2,000,000 gallons per 24 hours, 1893.
- 1 triple expansion horizontal engine, capacity, 2,000,000 gallons per 24 hours, 1904.
- Worthington 8", type "BS", slow speed, horizontal split casing, volute, centrifugal pump, capacity 3,500,000 gallons per 24 hours, 1919.

Motor, G. E., 100 H. P., A. C.

CITY OF CONCORD.

ELECTRIC PUMP.

- 1. Description of power:
 - a. Alternating, 3 phase, 60 cycles, 2,200 volts, 1,800 R. P. M.
 - b. Price per K. W. H., \$0.01 1/3, 8 p. m. to 6 a. m.; maximum, \$1,800 per year, 300,000,000 gallons; \$6.00 per 1,000,000 gallons, over 300,000,-000.

2. K. W. H. used for year, 160,720.

3. Total pumpage, by Venturi meter, 317,745,000 gallons.

4. Average static head against which pump works, 90 feet.

5. Average dynamic head against which pump works, 120 feet.

6. Gallons pumped per K. W. H., 1,977.

7. K. W. H. used per 1,000,000 gallons pumped, 505.8.

8. Efficiency of pump,

 $\frac{317.745.000 \text{ (gallons pumped)} \times 8.34 \text{ (lbs.)} \times 120 \text{ (dynamic head)}}{160.720 \text{ (K. } \mathbf{W. H.)} \times 33,000 \times 60 \times 1.34 \times 88.2 \text{ (efficiency motor}} = 84.5 \%$

9. Total pumping for year, steam and electric pumps, 319,217,000 gallons.

10. Cost of total pumping figured on pumping station expenses-\$4,024.80.

11. Per million gallons pumped—\$12.607.

12. Per million gallons raised one foot (dynamic)— \$0.105.

DISTRIBUTION.

MAINS.

1. Kind of pipe—cast iron and cement-lined.

2. Sizes-from two-inch to twenty-four-inch.

3. Extended—3,659 feet during year.

4. Relaid—feet during year.

5. Discontinued—118 feet during year.

6. Total now in use-73.15 miles.

7. Number of leaks per mile for year-

8. Length of pipes two inches and less diameter-3.51 miles.

9. Number of hydrants added during year-public, 4.

10. Number of hydrants now in use-public, 475; private, 96.

11. Number of stop gates added during year-7.

- 12. Number of stop gates now in use-1,082.
- 13. Number of stop gates smaller than four-inch-
- 14. Number of blow-off gates-81.

15. Range of pressure on mains at center of city-88 pounds high service and 48 pounds low service.

SERVICES.

- 16. Kind of pipe-cement-lined.
- 17. Sizes-three-fourths-inch to ten-inch.
- 18. Extended—2,362 feet.
- . 19. Discontinued-381 feet.
 - 20. Total now in use-95.731 feet.
 - 21. Number of service taps added during year-77.
 - 22. Number now in use-4,038.
 - 23. Average length of service-23.68.
 - 24. Average cost of service for the year—.
 - 25. Number of meters added during year-76.
 - 26. Number now in use-2,843.
 - 27. Percentage of services metered—70.40.
 - 28. Percentage of receipts from metered water—87.72.
 - 29. Number of elevators added—none.
 - 30. Number now in use-9.
 - 31. Number of standpipes for street watering-44.

FIRE DEPARTMENT.

REPORT OF CHIEF ENGINEER.

To the Board of Aldermen:

In accordance with the requirements of the city ordinance, I herewith submit for your consideration the report of the Fire Department for the year 1923:

The department responded to 56 bell alarms and 327 still alarms.

In addition two fires entailing loss occurred for which no alarms were given, accounts of which will be found in the order of occurrence.

	Bell	Still	No Alarm	Total
Precinct,	31	255	2	288
Penacook,	12	60		72
East Concord,	7	9 0		10
West Concord,	6	9		15
	56	327	2	385

This report will be found to contain statements in detail embracing the amount of expenditures, a complete roll of the department with residence and occupation of each member, a record of all fires and alarms which have occurred during the year and the causes thereof as nearly as could be ascertained, with the names of the owners or occupants and the value, loss, insurance, and insurance recovered in each case.

While the loss entailed by fire was considerably less than that of the previous year, still it was heavy. The apparatus is in good condition. The rear wheels of Combination Engine 2 were cut down and single tires substituted for the dual type. In addition the machine was overhauled, retouched and varnished.

All four wheels of Combination Engine 1 were cut down and solid tires displaced by pneumatics of larger type.

In August a new double bank Seagrave ladder truck was placed in commission and two horses turned over to the Highway Department.

A new Buick Chief's car was also placed in commission.

A building fifty feet by fifteen feet for storing the old ladder truck and one reserve hose wagon was erected by the permanent men, on the Central Station lot.

Four thousand feet of hose was purchased during the year.

I would respectfully recommend the purchase of one thousand feet during the coming year.

The fire alarm systems of the Precinct and Penacook are in good condition. In the precinct system the location of several boxes was changed and four siren horns were placed at convenient localities in the business section for the purpose of clearing the streets in case of fire.

One private box was also added to the system.

The Superintendent of Fire Alarm at Penacook recommends the addition of two boxes to that system.

During the month of October I attended the convention of the International Association of Fire Engineers held at Richmond, Va., a report of which I rendered at that time. I wish again to thank your honorable body for the privilege afforded me to learn.

Respectfully submitted,

W. C. GREEN. Chief Engineer.

SUMMARY, 1923.

APPARATUS AND FORCE.

The apparatus and force of the department is as follows:

Precinct, located at the Central Fire Station, one firstclass Amoskeag engine, "Eagle," and one 750-gallon Ahrens-Fox motor-driven combination pumping engine and hose car, attached to Eagle Steam Fire Engine Company (15 men); one second-class Amoskeag engine, "Kearsarge," and auto-combination car, attached to the Kearsarge Steam Fire Engine Company (13 men); one second-class Amoskeag engine, "Governor Hill," relief engine, in charge of an engineer and fireman, one autocombination car in charge of four permanent men; one motor-driven ladder truck, "City of Concord," attached to Hook and Ladder Company (21 men); one house man at Central Fire Station. There is but one horse kept at this station. There are eleven permanent men located at the Central Fire Station, one permanent man at each fire station within the precinct, one permanent man at Pioneer Station, Penacook, and one permanent man at Cataract Station. West Concord.

The Alert Hose Company (11 men), located on Washington Street, has an auto-combination car, with permanent man.

The Good Will Hose Company (11 men), located on the corner of Concord and South State Streets, has an autocombination car, with permanent man.

Veterans' Auxiliary Company (30 men).

One hand engine and three wagons and one ladder truck in reserve.

The "Pioneer" Engine Company, No. 3 (28 men), at Penacook, has a third-class Metropolitan engine, with two hose wagons and one auto-combination car with permanent man.

The Cataract Company (30 men), at West Concord, has a modern hose wagon and auto-combination car with permanent man.

CITY OF CONCORD.

Old Fort (30 mer.), East Concord, has a 4 1-2-inch cylinder Hunneman hand engine and hand ladder truck, and one hand-drawn chemical engine, 50-gallon, single tank, and one auto-combination car.

\$0.00

SEWERS.

The construction and repair statement will be found in detail in the report of this department to the Board of Public Works and published as a portion of their report.

WATER WORKS.

The sheet plans of pipe lines and appurtenances were brought up to date and blue prints made of same.

FIRE DEPARTMENT.

The fire-alarm and hydrant maps were corrected by adding new hydrants; blue prints of same were furnished the chief of the Fire Department. Plans were made for a house to store the horse drawn ladder truck and batters set for construction. Plan was made to re-inforce that portion of the floor system at the Central Station where the new motor driven ladder truck stands.

Building Petitions.

One hundred and seventeen petitions were presented to the ehief of the Fire Department and myself. Hearings were held on the premises of all petitioners and our action recorded upon the original petition, which petitions are on file with the city elerk. Statement of the disposition of the petitions was sent to the petitioners and a eopy of the same given the Board of Assessors, this office also retaining a copy of all transactions.

One hundred and sixteen petitions were granted and one denied for the reason that no one appeared to show location of proposed building.

The petitions called for 24 enlargements, 2 hen houses, 3 store houses, 82 garages, 1 store and 18 dwellings.

CEMETERIES.

Blossom Hill:

Batters set for new garage. Layout of block "N" into lots. Survey of Legion lot. Survey of lot No. 25, Block "G." Plan for new garage.

The deed book showing transfers of lots was brought up to January 1, 1924.

Woodlawn :

Survey of addition for proposed development.

PLAY GROUNDS.

Plans of the city were made for Mr. Cohn, play ground instructor, also detail work in the matter of layout of play grounds. Assessors' Maps.

During the year we have made a survey of the residential portion of the city in the matter of new structures. The plans in this office have been brought up to date and during the winter months the work will be undertaken to furnish new plans for the assessors but as this entails a large amount of work it is impossible to determine just how far we can go. We hope, however, to complete the work.

The areas of the outlying districts have been computed and statement given the assessors.

The real estate transfers have been kept up to date and the necessary map changes made. Total number of transfers recorded, 678.

HIGHWAY WORK.

Grades were given for 2,081 feet of road improvements, on Washington Street, Ward 1, and on South Street from Laurel to Clinton Streets.

Survey of culvert at Holden's Mill, North State Street, Ward 3.

Survey for driveway at junction of North State and Rumford Streets.

Survey and cross sections, Pleasant Street, South to South Spring Street.

Survey and cross sections, South Main Street, State Street to Margaret Pillsbury Hospital.

Survey and cross sections, South Main Street, Water Street to Sexton's Avenue.

Survey and cross sections, South Street, Clinton Street to West Street.

Survey and cross sections, Auburn Street, Franklin Street to Center Street.

Survey Curtis Avenue for drainage.

Profile center line, Wood Avenue.

Levels for catch basin pipes South Street and Broadway near Gifford's Store.

Profile for walk, East Penacook Street opposite Page Belting Company.

Survey and cross sections Gulf Street.

Gutter grades, South Main Street, east side, Pleasant Street to Freight Street.

Survey and cross sections, South Main Street, east side, Bartemus driveway to Sexton's Avenue.

Profile, Maitland Street.

Survey, North Main Street at Church Street for widening roadway.

Batters set for the metal building on city shed lot. Location of all new catch-basins.

Sidewalks.

Grade stakes set as follows:

Ferry Street, south walk, 296 feet. North Fruit Street, west walk, 280 feet. Highand Street, south walk, 594 feet. Pillsbury Street, north walk, 154 feet. Clinton Street, north walk, 100 feet. South Spring Street, east walk, 100 feet. Harrison Street, north walk, 109 feet. Washington Street, south walk, 132 feet. Liberty Street, west walk, 96 feet. Thompson Street, north walk, 133 feet. Washington Street, south walk, 135 feet. Curtis Avenue, north walk, 140 feet. Prospect Street, east walk, 227 feet. Dunklee Street, west walk, 352 feet.

Sidewalk Grades Established.

High Street, opposite No. 54-58, 100 feet. Washington Street, opposite Paine and Sanders lots, 175 feet. Curtis Avenue, north walk, Prospect Street, east, 140 feet.

Prospect Street, east walk, Curtis Avenue, north, 227 feet.

North Fruit Street, west walk, Woodman Street to School Street, 250 feet.

Thompson Street, north walk, Elm Street, west 133 feet. Highland Street, south walk, Jackson Street to Rumford Street, 594 feet.

Gulf Street, north walk, Water Street, east 157 feet. Dunklee Street, west walk, Gray's line south 352 feet.

Bridges.

Batters set for Ash Brook bridge on Hopkinton road and the Hackett Brook bridge in East Concord on the Mountain Road.

Survey of sites of Hackett Brook bridge on the Canterbury Road and Burnham Brook bridge on the Mountain Road.

Street Layouts.

Center Street Extension, Ward 1, 997.08 feet.

Spicer Street, Ward 1, 269.35 feet.

River Street, Ward 3, 399.40 feet.

Wood Avenue, 254 feet.

Broad Avenue, 1,086.71 feet.

Dunklee Street Extension, 351.66 feet.

Rumford Avenue, 1,214.82 feet.

Total length of streets laid out, 4,573.02 feet or 0.966 miles.

Total mileage of streets and roads, 173.93.

Total mileage in compact part of city, 46.55.

Total mileage in outlying portions of city, 127.38.

Plans Made.

City, 800 feet to the inch, for Highway Department. Thirty-three catch-basin connections. Leased land, Ward 3. Proposed standard concrete bridge for short spans. Proposed standard wood bridges for short spans, Map showing location of bridges. Plan of portion of sewer system. Spicer Street, Ward 1. Center Street Extension, Ward 1. South Street for road improvement. Washington Street, Ward 1, for road improvement. Garage, Blossom Hill Cemetery. City, for Post Office. Profile, White Street. Profile, Broadway. Profile, Harrison Street. Profile, Rowell Street. Cross sections, Pleasant Street. Cross sections. South Main Street. River Street, Ward 3. Proposed wall, West Garden. Cement concrete bridge, Hackett Brook, Mountain Road. Cement concrete bridge, Burnham Brook, Mountain Road. Cement bridges concrete, Hackett Brook, Canterbury Road. South Main Street layout below McKinley Street. Mounted paper of City, 1600 feet to the inch. Profile and cross sections, Gulf Street. North Main Street at Church Street. Penacook Union School District. Block "N" Blossom Hill Cemetery.

Block "G" lot No. 25, Blossom Hill Cemetery.

Two hundred and forty blue prints of various sizes. Curtis Avenue drainage.

Fisk Road drainage.

Sewer Connections Inspected.

During the year there have been sixty-two new sewer connections, all of which have been laid in conformity to the plumbing laws, inspected and recorded by your engineer.

The past season has been a busy one for this office and work was carried on with a small corps of assistants. The personnel of the Engineering Department is as follows: Clerk, Miss Grace L. Hubbard; Edward E. Beane, assistant engineer, and Joseph A. Clement, who came to us through the United States Veterans' Bureau, Rehabilitation Division, to secure training in mapping and surveying. He receives his compensation from the United States Government, and the City has his services free of any expense. All of these have rendered valuable services to the city.

I deeply appreciated your courtesy in allowing me to attend the American Society of Municipal Improvements, held at Atlanta, Georgia, in November.

For the support and co-operation of your board I wish to express my appreciation.

Respectfully submitted,

FRED W. LANG, City Engineer.

ø

REPORT OF THE BOARD OF HYDRANT COMMISSIONERS.

Concord, N. H., December 31, 1923.

To the Board of Mayor and Aldermen:

Gentlemen: The eighteenth annual report of this board, for the year 1923, is herewith submitted.

On August 10, the full board met and recommended the installation of a low service hydrant to be set on Broad Avenue 500 feet west of west line of Broadway.

No other sessions were held during the year.

Respectfully submitted,

W. C. GREEN, PERCY R. SANDERS, FRED W. LANG, Board of Hydrant Commissioners.

REPORT OF BOARD OF EXAMINERS OF PLUMBERS.

Concord, N. H., December 31, 1923.

To the Board of Mayor and Aldermen:

Gentlemen: The twenty-fourth annual report of this board is herewith submitted.

The membership of the present board is as follows: Wilfred W. Brennan, a licensed journeyman plumber, Charles H. Cook, M.D., and Fred W. Lang, city engineer. Mr. Brennan is chairman of the board and Fred W. Lang, clerk.

Four applications for journeyman's license were received.

Two meetings of the board were held, two of the applicants were examined and failed to pass the required examinations.

Two applicants have as yet failed to appear for examination.

There are four classes of plumbers on the register: Registered Master; Examined Master; Registered Journeyman; and Examined Journeyman.

The following paid for their 1923 license, and are classified as follows:

REPORT OF THE BOARD OF PUBLIC WORKS.

REPORT OF THE HIGHWAY DEPARTMENT.

To the Board of Public Works:

The annual report for the year ending December 31st, 1923, is herewith presented for your information.

During the year improvements have been made on our Trunk Line roads by laying "A Modified Asphalt" top on the East side of South Main Street, north of West Street, and several stretches between the City proper and Penacook, as well as on Washington Street, Penacook.

North and South State Streets and the road to East Concord have been given an application of tar, and Pleasant Street has been improved by a gravel constructed street with tar application; South Street on the East side. Laurel to Clinton, has been constructed by the Asphalt penetration method: Dimond Hill, from a point near School House to improvement made last year, has been resurfaced with gravel and tar top: the Loudon road was given an application of Asphalt, from Merrimack river to Pembroke-Concord Town Line.

The past year we have constructed reinforced concrete bridges on the Dimond Hill road, and over the Hackett Brook on the Penacook-East Concord road, as well as replacing the floor system on the River Hill Bridge, replanking the Twin Bridge and replacing all broken tile culverts with corrugated iron culverts.

The past year we have erected new sheds at the City Stable's lot, painted and shingled paint shop, painted stables, garage and blacksmith shop. The garbage collection is increasing each year, the addition of the two Ford trucks, however, is taking care of the collection in a satisfactory manner. The cost to this Department for the collection of table garbage for the year amounted to \$5,329.38.

Approximately the same amount has been expended for concrete and tar walks as in preceding years.

The marking of streets, flushing pavements in business district and painting of bridges has been carried on the past year as usual.

The general upkeep of our country roads is taken care of by road machine and dragging, with the assistance of local agents in each district, but with the increased auto traffic this is demanding a larger sum from our appropriation each year.

I wish to thank Mayor Chamberlin and the members of the Board for their kindness and assistance the past year.

Respectfully submitted,

ORRIN W. HEAD,

Superintendent of Streets.

FINANCIAL REPORT OF THE HIGHWAY DEPARTMENT.

SUMMARY.

Central District,	\$134,753.79
Suburban Districts,	33,878.03
Transferred to Sidewalks and Crossing repair,	1,021.49

REPORT OF THE SEWER DEPARTMENT.

CONCORD, N. H., December 31, 1923.

To the Board of Public Works:

GENTLEMEN: The thirteenth annual report to your board showing work done under the supervision of the Engineering Department, for your board, for the fiscal year ending December 31, 1923, is herewith submitted.

This report is written with the idea that it is useful, principally as a record of facts pertaining to the amount of work done, and to the costs, given in such form as will permit comparison with costs of previous years, thereby furnishing a check on relative efficiency, etc.

In this report I shall make no recommendations, believing it to be more appropriate to make them to your board at your regular sessions, when the opportunity is always open.

SEWERS.

There were laid during the year 1923, 3.072 feet of Akron pipe, or 0.5818 miles, subdivided as follows:

Holly Street: 135 feet of 10-inch.

Dunklee Street, from Holly Street, north: 253 feet of 8-inch.

Princeton Street: 210 feet of 10-inch.

Rowell Street: 172 feet of 8-inch.

White Street: 110 feet of 8-inch.

Broadway, opposite Wood Avenue: 68 feet of 12-inch, 110 feet of 10-inch.

Broadway, north of McKinley Street: 210 feet of 10-inch. Water and Hall Streets: 109 feet of S-inch.

Broad Avenue: 338 feet of 12-inch, 487 feet of 10-inch. Depot Street: 94 feet of 24-inch, double strength, 190 feet of 18-inch.

Harrison Street: 60 feet of 8-inch.

 $^{^{21}}$

Dunklee Street, south of Allison Street: 134 feet of 10-inch.

Dunklee Street, north of Allison Street: 94 feet of 10-inch.

Wood Avenue: 8 feet of 10-inch, 290 feet of 12-inch.

HOLLY STREET EXTENSION AND DUNKLEE STREET.

WOOD APENTE

Cost per foot, \$1.371+. Material excavated, sand.

SAINT PAUL'S SCHOOL SEWERS.

No extensions were built in 1923.

The flush-tank pipe on Hopkinton Road became filled with roots, and as this trouble had occurred before, it seemed wise to build a manhole just south of the flushtank to replace the existing lamp-hole. This was done and in the future any trouble from stoppage can be relieved at small cost.

Cost of removing roots:

Labor.	Trucking.	Total.
\$38.38	\$2.94	\$41.32

CITY OF CONCORD.

Cost of building manhole:

Labor.	Trucking.	Cement.	Brick.	Casting.	Total.
\$33.28	\$9.72	\$7.60	\$7.50	\$15.75	\$73.85

EAST CONCORD SEWERS.

No extensions or repairs were made in 1923.

WEST CONCORD SEWERS.

No extensions were built in 1923.

There was a break in the main line in North State Street opposite the mill, causing the relaying of 8 feet of 10-inch pipe at the following cost:

Labor.	Trucking.	Pipe.	Cement.	Insurance.	Total.
\$9.55	\$3.50	\$3.44	\$0.90	\$0.26	\$17.65

Repairs were made on the 20-inch outlet, costing:

Labor.	Trucking.	Cement.	Total.
\$6.50	\$1.17	\$0.90	\$8.57

Repairs were made to manholes in North State Street opposite mill, costing:

Labor.	Cement.	Total.
\$12.00	\$0.90	\$12.90

On account of road improvement, manholes were raised to street level at the following cost:

Labor.	Trucking.	Cement.	Casting.	lnsurance,	Total.
\$79.10	\$17.49	\$1.80	\$15.75	\$2.14	\$116.28

The entire system was flushed at a cost of :

Labor.	Trucking.	Total.
\$26.83	\$6.61	\$33.44

316

PENACOOK SEWERS.

No extensions were built in 1923.

The cost of flushing the system was as follows:

Labor	Trucking.	Insurance.	Total.
\$116.00	\$22.94	\$2.57	\$141.51

During the year there were three main line plugs, namely:

Overflow at Merrimack Street:

Labor.	Trucking.	Insurance.	Total.
\$14.00	\$3.11	\$0.38	\$17.49

Bye Street at Merrimack Street :

Labor.	Trucking.	Cement.	Insurance.	Total.
\$42.00	\$1.56	\$1.13	\$1.20	\$45.89

Bye Street:

Labor	Trucking.	Insurance.	Total.
\$9.67	\$1.56	\$0.21	\$11.44

The improved roadway on Washington Street made it necessary to raise manholes to street level at the following cost:

Labor.	Trucking.	Cement.	Castings.	Insurance.	Total.
\$46.67	\$9.45	\$3.40	\$26.75	\$0.54	\$86.81

CITY OF CONCORD.

LATERAL PIPES.

There have been 82 complaints in the city proper of plugs in pipes from main sewers to street lines.

All cases were immediately investigated and obstruction removed.

Only cases where expenditures were made will be given in this report.

Total cost of cleaning lateral pipes, \$435.10.

The sewer system appears at present to be in good condition except on streets where poplar trees exist; the list of main line plugs shows this to be true and no damage has been done to private property.

One problem that will have to be solved if street surfaces are to be made of material other than gravel in its natural state, namely, the run off of surface water; this can be partially met by connecting all catch-basins outlet pipes into manholes and if there are no manholes where catch-basins now exist they should be built.

Labor.

This department is handicapped, especially in the winter and early spring by not having a permanent organization of workmen, it being about impossible to hire one or two men to go out on sewer plugs in the winter months for only a few hours work, in the water and filth.

This year, thanks to the untiring efforts of Mr. John S. B. Davie and Mr. William H. Riley of the State Board of Labor, we were able to obtain a sufficient number of high grade workmen to complete all the construction jobs that we were instructed to build.

As a check on the efficiency of this year's working force the following facts will be of interest.

In 1922 the department laid 4,964 feet of pipe at a labor cost of 6,756.62 or an average cost of 1.361 per foot, wages were 3.00 for workmen and 6.00 for foreman for a nine hour day.

In 1923 the department laid 3,072 feet of pipe at a labor eost of \$4,013.56 or an average of 1.274+ per foot, wages were \$4.00 and \$4.50 for workmen, and \$6.00 for foreman for a nine hour day.

The character of the work and material excavated were, from a construction standpoint, substantially the same both years and although the wages for workmen were increased from 33 1-3 to 50% over 1922 wages, the department was able to complete the year's construction at practically the same cost per foot as in 1922.

I find that the better the men are paid, the more work is done in the same number of hours. The above proves this to be true as the quality of labor was of the same high standard in both years.

The maintenance of the sewer system has been carried on with Mr. John Henry Sanborn as foreman, who has at the close of this season's work, completed fifty years of service for the City of Concord on sewer work, during which time he has rendered a service that probably eannot be equaled by any man, always working for the interest of the City and safety of his workmen.

The employees working under Mr. Sanborn this season were William H. Murphy, Walter S. Dow, and Michael Donahue, all of whom have rendered valuable service to the department. During the year new sheds, made of metal, were erected at the City Shed site, thus relieving a long needed requirement. We are now able to store our equipment under cover and thus prolong its usefulness.

The pipe for the year's work was furnished by Thompson and Hoague Company, agents for the Eastern Clay Goods Company at a discount of 59% off of list.

Cement was purchased of the Concord Lumber Company and Walter S. Dole.

Tools and hardware were purchased from A. H. Britton & Co., Thompson & Hoague Co., and The Bond Company of Boston, Mass.

Oil was purchased from the stores nearest to the jobs.

Lumber was purchased of the Concord Lumber Co.

The heavy trueking was done by George L. Theobald and M. J. Gorham.

Notes on Construction.

The foregoing data shows that the major portion of construction was in the southerly section of the city,

where the excavation was mostly sand. Except on Water, Holly, and Dunklee Streets, in every case we were obliged to brace and curb the ditch for safety.

Depot Street construction was the most difficult job, as we had to contend with so many old ditches and pipes. This line as constructed will tend to relieve the congestion in North Main Street line during showers. The casterly side of North Main Street was closed to traffic for seven days at a period when travel was at its highest and yet no accident occurred, either to the traveling public or workmen, owing to the hearty co-operation of the Police Department and the efficiency of the police officers stationed in that vicinity.

Monthly statements of coal tar side-walks, etc., were made, showing the location, quantities laid, price for same, and given to the department or committees having the work done.

In company with one or both of the three members of the committee on locating poles, I have attended to that duty, attended hearings and meetings of your board and furnished such information from this department as was ealled for.

For the many courtesies extended to me by your board, I wish to express my appreciation.

Respectfully submitted,

FRED W. LANG, City Engineer.

PUBLIC LIBRARY.

REPORT OF THE TRUSTEES.

To the Mayor and Board of Aldermen of the City of Concord, New Hampshire:

The Trustees of the Public Library herewith transmit the annual report of the librarian containing a brief account of the work of the year 1923.

At the annual meeting of the Trustees held on January 28, 1924, Levin J. Chase, Willis D. Thompson, and T. W. D. Worthen were appointed a committee to make a survey of the public library facilities as found in the City, State, and Historical Society libraries, for the purpose of determining what additional library service ought to be provided for the City and of avoiding any duplication in the service of the three independently operated libraries, especially when the time comes that any extension of the work of the City library is found to be practicable. It is understood that this committee will welcome heartily any suggestions from persons or organizations willing to co-operate in this most important public work.

The Trustees request that the appropriation for 1924 be \$7,000, which is the same as for the last five years, this being the smallest sum rendering possible reasonably adequate service, with the same extreme economy and faithful service on the part of the librarian and her assistants, which have been so conspicuous in the past.

Respectfully submitted,

THOMAS W. D. WORTHEN. President of the Board of Trustees.

February 29, 1924.

REPORT OF THE CITY LIBRARIAN FOR 1923.

To the Board of Trustees of the Concord Public Library:

PUBLIC LIBRARY.

STATISTICS OF CIRCULATION,

No. of bound volumes of fiction lent in 1923, No. of volumes of non-fiction, No. of periodicals lent,	$54,149 \\ 12,099 \\ 4,559$
Total circulation,	70,807

(These figures gratifyingly show that the proportion of non-fiction read was larger than in 1922.)

STATISTICS OF ADDITIONS.

No. of bound volumes at beginning of year,	34,046
No. added by purchase and by binding material	
not otherwise counted,	979
No. of volumes added by gift,	36
Discarded,	<u>2</u> 43
Total number owned at end of year,	$34,\!818$

Turning from statistics to remarks, there is almost nothing new to be said, but some old points will bear stressing; for instance, in 1922 I enumerated six formidable things which have sprung up to interfere with a public library's popular patronage. I can now mention a seventh,—radio. Although our competition with the movies is an old story, it having been for a good many years that I have heard pupils rush from school calling. "Come on! Let's go to the pictures!" instead of "Let's go to the Library!" broadcasting is a new rival: it was only last week that a citizen of brains said to me,

"After my supper, I take up the receiver and listen in; if it is not working well, I put it down and take up a book." You note—the book has the second place in his affections.

With this additional competitor in the field, there is small prospect of a library again being the attraction it once was. All I can say is, when in the not distant future, film production is eclipsed by an invention which will enable a stay-at-home to see as well as hear, and when motor-cars contest popularity with air-planes, they may see how they like it, to have their business taken away from them! Of course, I am half-laughing as I thus rail, for a public library will always be a prime necessity —our daily reference work alone proves that. And let it be clearly understood, this Concord Library is not unique, for an ex-president of the American Library Association recently alluded, as to a well-known fact, to "the drop in the circulation of books"; and the last Library Journal has two pages on the "increase of recreational opportunities as felt by public libraries."

It may strike you as inconsistent to report in the same breath less custom and yet ask for better quarters; but we realize as never before, how crowded and old-fashioned our building is. There is a tiresomeness in having nowhere a margin of space. You, in your business, gentlemen of this Board, have seen three clerks needed where one used to suffice, big filing-cabinets installed where a drawer used to answer, telephone extensions where one receiver formerly did well enough—and so on. Well, the years have brought to our little Library also, an increase in *tempo*; the days never seemed so full of rush and interruptions; and to cope with these modern ways of a modern public, we have only our old equipment.

From the figures given at the beginning of this Report, you will see that we have been able to buy more than the usual number of volumes the past year, though the trend of prices is still upword; our increased purchasing power was due to larger interests accruing on our trust funds.

Of the thirty-six books given to the Library, it is not possible to enumerate here the names of the donors; but it may be said that they have been not so often individuals as organizations, such as the Carnegie Endowment for International Peace, and the Rockefeller Foundation. Our reading room is indebted to the Young People's Christian Union of the Universalist Church for the periodical, "Onward", and to its adult Unity Circle for the Universalist Leader: to the Unitarian Alliance for the "Christian Register": to the Christian Science Publishing Society for their "Sentinel" and "Journal"; "Everyland" comes from the Federation of Women's Mission Societies in the city, and "The Watchman" from a Baptist friend; "The Union Signal" from the state W. C. T. U., and the national D. A. R. magazine from the local Chapter.

To the new Junior High School Library in Penacook we have contributed about seventy-five volumes (many of them duplicates we owned), which will aid considerably the teachers and pupils there, as they were books selected with that end carefully in view.

There are two points on which we are not satisfied. First, we ought and would like to do more with the schools: and second, we would like to have deposit stations in outlying wards. Delaying the first of these cherished schemes, is the feeling, based upon experience, that in the busy teacher's life, there is hardly a craving, though there is always a willingness, for more book-tools to work with, if that entails responsibility for volumes used freely by pupils. Before the realization of the second project, some way must be found to make our books. displayed in an agency such as a store, safe from removal by customers who take them off without having them charged. Penacook and East Concord are temporarily without a library branch supplied with books from which residents could choose, because it is difficult to find a person who wants, for merely nominal pay, the job of keeping sharp track of deposited volumes and of making record of their circulation.

During the past year we have lost by death the Trustee from Ward 2, Mr. Frank P. Curtis. My memory of him will be of an interested member of your Board who made great efforts to get over to the annual meetings, though often defeated by the condition of weather or roads.

In November, Miss Clara F. Brown, who began to work for the Library soon after it was moved into this Fowler Building, and who has for these thirty-five years acted as reference librarian, sent in her resignation, to take effect at the close of 1923. Identified as she has been with the Library to which she has devoted most of her life, serving it always to the best of her ability and letting no other interests compare with it, her honorable place in the history of the institution is secure.

Though Mrs. Grace M. Farnum was not a regular member of our staff, she had assisted us so many hours and always so gladly and pleasantly, that we felt deeply her death which occurred in January of 1924.

In closing, let me quote that while the Library is useful and helpful, it has not reached its maximum of helpfulness or usefulness, and it cannot do so until the people themselves realize what it has to give them. We wish everybody would read our monthly lists in the Monitor-Patriot, and note especially the variety of subjects covered by our non-fiction additions.

Respectfully submitted,

GRACE BLANCHARD, City Librarian.

POOR DEPARTMENT.

.

FIFTY-SIXTH ANNUAL REPORT OF THE OVERSEER OF THE POOR.

FOR THE YEAR ENDING DECEMBER 31, 1923.

To the Board of Aldermen:

The undersigned herewith submits the fifty-sixth annual report of expenditures for the poor, including Wards One and Two, for the year ending December 31, 1923:

REPORT OF CITY SEALER.

Covering the Period January 1, 1923, to January 1, 1924.

To His Honor Henry E. Chamberlin, Mayor, and the Board of Aldermen:

Four hundred and forty-two (442) scales were tested and sealed, four (4) were confiscated and twenty (20) condemned for repairs which were later reinspected and sealed; forty-two (42) wood carts were measured and marked; five (5) reweighings of coal were made and six (6) coal bins estimated. Thirty-two (32) five-gallon caus were tested and sealed; seventy-five (75) packages containing beans, potatoes, etc., were reweighed; one hundred and ninety-two (192) tests of automatic pumps were made, many of which needed adjustments, ten (10) were condemned for repairs and one (1) completely condemned. All liquid and dry measures were found correct.

Respectfully submitted,

FRED S. PENDLETON, City Sealer.

REPORT OF THE CITY SOLICITOR.

Concord, N. H., January 9, 1924.

To the Mayor and Board of Aldermen:

The routine work of the City Solicitor during the last year has been of considerable volume and it would be impossible to detail it all in this report. This work consists of numerous opinions to the full board of public works and various officials, attention to the drawing of petitions, resolutions and ordinances, of the notification of mortgagees in the case of tax sales and such matters, all of which take considerable time. During the year the Solicitor has had occasion to clean up a number of long pending matters of detail and is aware, at the present time, of only one matter which is not out of the way but which is nearly concluded.

Cases in Court have been disposed of as follows:

Elgland v. City of Concord.

This case was tried before a jury in the United States District Court in the early part of the year and resulted in a verdict for the City. A motion for a new trial was filed and after hearing was denied.

McLaughlin v. City of Concord.

This was really a Water Works case and the Water. Board commissioned Nathaniel E. Martin, Esq., to work with the City Solicitor. As result the case was settled outside of court for \$2,400.00.

CITY OF CONCORD.

Normandeau v. City of Concord.

This was an appeal from award of damages for the laying out of the new Soucook River cut off. The trial by jury at the April Term of the Superior Court resulted in the astonishing verdict of $\pm4,700.00$ for the plaintiff. The Solicitor moved to set this aside and the plaintiff was ordered to remit $\pm2,200.00$ of the verdict or the case to go to new trial. This resulted in the payment of $\pm2,500.00$ and some interest in settlement.

At the October Term of the Superior Court the case of Normandeau v. City of Concord, arising out of the accident at the Clough Hill Bridge, the town of Pembroke being a co-defendant with the City, was settled by the payment of \$700.00 by each defendant.

Respectfully submitted,

ELWIN L. PAGE, City Solicitor.

REPORT OF THE DIRECTOR OF PUBLIC PLAYGROUNDS AND BATH.

Following is a report of the Municipal Playground and Bath Department for the season of 1923:

The instruction in the many forms of athletic exercises and games has been along the same lines as last year, with a few exceptions. There was less stress placed on strenuous athletic sports, and more attention given to games that embrace mass athletics. One of the tests given throughout the entire season was the all round test for all the boys and girls, in three classes: Midgets, Juniors, and Seniors. Silver and bronze badges, with diplomas, from the Playground and Recreation Association of America, were issued to all passing tests.

Aquatic sports, and the teaching of swimming was held daily at the Baths. The past season saw the Baths opened for the first time daily for the girls as well as the boys, with two very capable instructors in Mr. Webster Bridges and Miss Ellen Reardon.

Rolfe Park Playground, in Penacook, was opened for the first time and athletic equipment furnished, with Miss Dorothy Flanders, Instructor, in attendance three days each week.

The Playground in East Concord was also furnished with new equipment, and Miss Flanders was in attendance twice each week.

The John Kimball Playground had the largest daily attendance, and carried off the majority of the athletic honors, under the able direction of Mr. Wm. E. Coughlin and Miss Paulita Clark.

The South End Playground children responded favorably to the efforts of their instructors, Mr. James Cassidy and Miss Madeline Vose. At the close of the season the annual pageant was held in White Park, where all the children from the various playgrounds met and gave a fine exhibition of their work during the past season, the program consisting of mass games—mass athletics, inter-playground contests, individual acts and plays. This program started at two P. M., and ended with refreshments at five-thirty. Through the kindness of Nardini's Restaurant, seven hundred servings of ice cream were issued.

I submit the following recommendations to the Playground and Bath Department:

A small portion of White Park should be reserved as a playground. This Park is centrally located, and with its ideal ground conditions would make an excellent playground; a man and woman instructor to be in daily attendance.

Rolfe's Playground, in Penacook, should have a man and woman instructor daily, and at East Concord, a woman instructor on full time. The past season, one instructor had to devote her time between these two playgrounds, which is not satisfactory.

Two extra bath houses should be erected at the bathing beach. Are lights for night swimming, and a telephone and pulmotor should be installed for emergency purposes. This matter has been investigated and could be done, but the great objection to these last three propositions is the vandalism which has been shown, not only at the beach, where on several occasions during the past season the bath houses have been broken into, flooring ripped up and equipment stolen; but the equipment houses at the playgrounds have also been broken open, equipment taken and apparatus destroyed. It is with great reluctance that I have to report this matter, as it easts a reflection on a great majority of innocent children who have to suffer for a few boys who should know better. Actions like these only keep the Committee on Playgrounds and the Director from going ahead and

furnishing playgrounds with much needed equipment. Over two hundred dollars was expended the past season for damages and equipment taken.

The financial report, after paying a few unpaid bills of the previous year, shows a small balance inside the appropriation.

The kind assistance I have received from Mayor Chamberlin, Mr. Head of the Highway Department, Mr. Lang, the City Engineer, Mr. Sanders of the Water Works Department, and the Committee on Playgrounds and Baths, consisting of Aldermen Brunel, Stevens, Jones, Morrill, Mrs. Cora Sullivan, Miss Elsie L. Johnson, and Richard Smith, has added greatly in making the past season a success. It has been a pleasure to have worked with them.

Respectfully submitted,

HARVEY W. COHN, Supervisor of Playgrounds.

Appropriation,	\$2,800.00
Disbursements,	2,633.34
Unexpended balance,	\$166.66

HEALTH DEPARTMENT.

REPORT OF THE BOARD OF HEALTH.

To the Board of Mayor and Aldermen:

Following is the report of the Board of Health for the year ending December 31, 1923.

The board was organized as follows: Mayor Henry Chamberlin, ex-officio chairman, Doctor Charles H. Cook, ex-officio member, was elected secretary, and Doctor Sibley Morrill was the third member. Meetings were held from time to time throughout the year for the transaction of special and routine busness.

The report of the Sanitary Officer to the Board of Health is transmitted herewith and hereby approved and adopted as a part of this report. It is thought that this document covers the ground of the department's activities so fully and in such detail as to render superfluous a lengthy supplementary report from this board.

Respectfully submitted,

HENRY E. CHAMBERLIN, Mayor, CHARLES H. COOK, M. D., S. G. MORRILL,

Board of Health.

REPORT OF THE SANITARY OFFICER.

To the Board of Health:

Gentlemen: The annual report of the Sanitary Officer for the year ending December 31, 1923, is herewith submitted.

There were during the past year 490 deaths, which is 9 more than in 1922, heart disease causing 50, the largest number from any one cause. Estimating the population at 23,000 and excluding the non-resident deaths, 193, and the stillbirths, 11, the yearly death rate for Concord was 12.43%. There were 268 deaths in the public institutions, and 222 in the nine wards of the city.

Of the contagious diseases, measles have been the most prevalent and three hundred and sixty-nine cases were reported with no fatalities. Nine cases of diphtheria, twenty-six cases of tuberculosis with twenty-two deaths, nineteen of which were at the State Hospital, one case of typhoid fever and forty-six cases of venereal disease were reported. The Venereal Disease Clinic has done Sixty-four different cases have been excellent work. under observation and approximately 400 treatments have been administered. This work is helping to check the menace from this disease and is a most important factor in the community. As was the case last year there has been more or less scarlet fever throughout the year, the total number of cases was seventy-three, exceeding 1922 by thirty-two cases with no deaths.

In answer to the demands of the citizens for the proper collection of table garbage, a new department was added to the Health Department in 1922. This branch of the work has proved to be quite a problem. It has rapidly grown from the few hundred on the first list, until today, collection is made once each week from between four and five thousand families. J. A. Cochrane is in charge of this work and it is being well taken care of at the present time. Twenty-one licenses for the collection of garbage were issued but most of these men have discontinued, as live weight hogs sell at such a low figure, it does not pay to expend time making collections in the city.

In attempting to impress upon you the extreme need of an isolation hospital, should an epidemic of small pox break out in our midst, in the report of 1922 I eited statistics of the epidemic in Denver, Colorado. No doubt Denver seemed so far distant the statistics did not make the desired impression as no action was taken. However, the recent outbreak in New Hampshire, where we have had thirty-nine cases in the towns of Wakefield, Lincoln, Hinsdale, and Rochester should make us realize that we may be called upon at any time to cope with a similar situation. Should a case develop in one of the hotels or in any of the institutions, we would be obliged to hold it in quarantine, wherever it might be.

The State Laboratory has examined eighty-one samples of milk for this department with the result that sixty-six of these samples were above the minimum required standard. I examined forty-one milk farms and found twenty-eight to be in very good condition, all being clean and sanitary; improvements necessary to put the remaining eleven in good sanitary condition were advised.

There has been an increase in building during the past year and many new houses have been built, quite a number now being in the process of construction. Two hundred and forty-one plumbing inspections have been made.

One hundred and forty-three complaints of nuisances have been inspected and the cause eliminated. These were largely from dead animals, odors from pigs, rubbish, unsanitary plumbing, refuse in yards and general condition of premises. The weekly inspection of alleyways in the rear of the business blocks has avoided any accumulation of rubbish. The water analysis shows that our supply from Penacook Lake maintains its usual superior quality. Regular inspection of the shores of the lake keep it free from contamination of any sort.

The appropriation for the year was \$5,000, and the total expenditures were \$4,359,33, leaving a balance of \$640.67. Although we had quite a large number of cases of contagious disease, we were fortunate in having very few cases needing financial aid, which is largely responsible for the balance left from our appropriation. \$187.75 was received from milk license fees.

The following tables show in detail the work of the department:

FINANCIAL STATEMENT OF THE BOARD OF HEALTH FOR THE YEAR ENDING DECEMBER 31, 1923.

ASSESSORS' REPORT.

To the Taxpayers of the City of Concord:

The Board of Assessors submit to your consideration the following facts and figures showing the valuation of the city and its school districts and special precinct, with the amount of taxes raised in each and returned to the tax collector for collection.

The various precincts formerly existing were abolished by an act of the legislature amending the charter of the city of Concord, at the 1923 session.

In the following report is a table of the amount raised by direct taxation for the years from 1913 to the present time, which shows the increased amount spent by the city. TABULATIONS OF WARRANTS SUBMITTED FOR ASSESSMENT, VALUATION OF CITY AND PRECINCTS WITH RATE FOR EACH IN 1923.

		\$2.334.61

Transferred to general account Water Department of Board of Water Commissioners. \$2,334.61

BLOSSOM HILL CEMETERY RECEIPTS.

One-half of the receipts for the sale of lots is added annually to the permanent fund. The remaining half, with the amount received for grading of lots sold, together with the amounts received from sundry collections and income of permanent fund, are added each year to the annual appropriation. The amounts expended on trust funds are paid on a special order from the mayor from the income of individual deposits made with the city for that purpose, said income being used exclusively for the care of the lot specified in each trust.

To coupons overdue January 1	, 1923,	
and not presented,	\$146.00	
To coupons due, 1923,	12,375.00	
		\$12,521.00

Cr.

I hereby certify that I have examined the foregoing account of Carl H. Foster, city treasurer, for the year 1923 and find all items of receipt and expenditure therein properly recorded and authenticated by appropriate vouchers, and the several items correctly cast, and cash balance to be seventeen thousand nine hundred and ninety-six dollars and thirty-seven cents (\$17,996.37), and as the treasurer of the city water department, cash balance to be thirty-nine thousand eight hundred ninety-one dollars and seventy-four cents (\$39,891.74).

I have also verified the account of the special funds and sinking funds of the city in the hands of the city treasurer, and find such special and sinking funds invested, and the income thereof for the year 1923 accounted for, as shown by the book of the city treasurer kept for the purpose.

> ARTHUR E. ROBY, City Clerk.
